

Software Requirements Specification - *SRS*

Project Course in Software Engineering

Co-Author: Abdalrahman Dabor

Co-Author: Ahmad Anberji

Co-Author: Hamza Hajderovic

Co-Author: Jacob Yousif

Co-Author: Osama Zarraa

Co-Author: Sirwan Rasoul

Semester: VT 2020

Area: Computer Science

Course Code: 2DV609

Contents

1	Introduction	1
1.1	Purpose of the requirements document	1
1.2	Scope of the product	1
1.3	Business goals	1
1.4	Definitions, Acronyms, And Abbreviations	1
1.5	How to use the document	2
1.6	Stakeholders	2
1.7	Security and Privacy	3

1 Introduction

1.1 Purpose of the requirements document

The purpose of the requirements document is to produce complete, precise, and formal specifications from the needs of the stakeholders. The report is written and structured such that a variety of different stakeholders can understand the contents of the document.

The document contains precise requirements of the Exam Management System. Hence the text serves as a pivot for the architectural design and the implementation of the plan.

1.2 Scope of the product

The scope of the process is to define the stakeholders, conduct requirements elicitation, requirement analysis, and requirements validation. Write test cases for the final precise set of requirements. Moreover, the scope includes designing and implementing the last accurate set of requirements.

1.3 Business goals

The business goals of the application are to provide Exam Management System that provides educators with features that allow them to create and manage exams that can be performed by students remotely and to allow flexibility in terms of correcting exams and setting grades.

1.4 Definitions, Acronyms, And Abbreviations

Acronyms and abbreviation	Definition
SRS	Software Requirements Specification.
GDPR	European Union General Data Protection Regulation.
CRUD	Create, Retrieve, Update and Delete.
UI	User Interface.
GUI	Graphical User Interface.
SSL	Secure Sockets Layer.

Table 1: Acronyms, abbreviation and definitions

1.5 How to use the document

User	Use
Developers, Designers, and Testers	They can use this document to design, develop the system, and structure test cases for it.
Data Inspection Board	They can use this document to understand how the personal information of the students is being handled in the system.
Project Maintenance Team	They can use it to understand and decide how they can maintain the system.
Teachers and Teacher Assistants	They can use it to understand how the system works in terms of creating exams, adding questions and setting grades.
Students	They can use it to understand how the exam management system works.

Table 2: The Use Of The Requirements Document

1.6 Stakeholders

Stakeholders
Product Owner
End-Users: Students
Software Developers
Software Designers
IT Security Team
Networking Team
University President
Teachers
Teacher Assistants
Academic Faculty
Non-government organizations: Student Union
University Administrators
University Support Service
Software Testers
Database Team
Project Maintenance Team
The Education Authority
Data Inspection Board

Table 3: Stakeholders

1.7 Security and Privacy

When it comes to the security aspect, the system will handle and manage sensitive information that belongs to the users of the applications, such as personal information, addresses, and grades. The SSL technology will be adapted to protect and secure the information during the communications and the transmissions between the Client and the Server and vice versa.

As for the privacy aspect, the system will provide privacy by processing and managing the data of the users in accordance and compliance with the GDPR. These aspects are essential for the system to make it a secure and reliable application.

2 Requirements

This section contains the functional and the non-functional requirements for the application MyExam Management application.

2.1 Functional Requirements

The functional requirements divided into three categories, Admin, Teacher, and Student. The following subsections will describe them according to their categories:

2.1.1 Admin Requirements

Identifier	ADMN-EXAM-001
Priority	Essential
Description: An admin shall be able to create an exam for any teacher.	
Input: The name of the exam, the publication date and time, the deadline date and time and the duration time.	
Output: An online exam.	
Process: The system will create an online exam, and save the information in the database.	

Identifier	ADMN-EXAM-002
Priority	Essential
Description: An admin shall be able to review all exams.	
Input: The name of the exam.	
Output: The exam corresponding to the name.	
Process: The system will retrieve the information of the target exam from the database and view it for the user.	

Identifier	ADMN-EXAM-003
Priority	Essential
Description: An admin shall be able to edit all existing exams.	
Input: The name of the exam and exam data to update.	
Output: Updated exam.	
Process: The system will update the target exam and save and update the information in the database.	

Identifier	ADMN-EXAM-004
Priority	Essential
Description: An admin shall be able to delete any exam.	
Input: The name of the exam.	
Output: The exam removed from the system.	
Process: The system will delete the target exam and delete the information from the database.	

Identifier	ADMN-QUES-001
Priority	Essential
Description: An admin shall be able to add question[s] to any exam that requires textual answers from students.	
Input: Question[s].	
Output: Question[s] added to the exam.	
Process: The system will add the question[s] to the target exam and save the information in the database.	

Identifier	ADMN-QUES-002
Priority	Essential
Description: An admin shall be able to add question[s] to any exam with multiple-choice answer[s] that requires students to check the answers to an exam.	
Input: Question[s] and multiple-choice answer[s].	
Output: Question[s] with multiple-choice answer[s] added to the exam.	
Process: The system will add the question[s] and the multiple-choice answer[s] to the target exam and save the information in the database.	

Identifier	ADMN-QUES-003
Priority	Essential
Description: An admin shall be able to read textual question[s] in any exam.	
Input: The name of the exam.	
Output: The given exam with its question[s].	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its question[s] for the user.	

Identifier	ADMN-QUES-004
Priority	Essential
Description: An admin shall be able to view existing question[s] with multiple-choice in any exam.	
Input: The name of the exam.	
Output: The given exam with its question[s].	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its question[s] and answer[s] for the user.	

Identifier	ADMN-QUES-005
Priority	Essential
Description: An admin shall be able to edit textual question[s] in any existing exam.	
Input: Name of the exam.	
Output: Question[s] updated in the exam.	
Process: The system will update the question[s] in the target exam and save and update the information in the database.	

Identifier	ADMN-QUES-006
Priority	Essential
Description: An admin shall be able to edit question[s] with multiple-choice answer[s] in any existing exam.	
Input: Name of the exam.	
Output: Question[s] and answer[s] updated in the exam.	
Process: The system will update the question[s] and the answer[s] in the target exam and save and update the information in the database.	

Identifier	ADMN-QUES-007
Priority	Essential
Description: An admin shall be able to delete textual question[s] from any exam.	
Input: Name of the exam.	
Output: Question[s] deleted from the exam.	
Process: The system will delete the question[s] from the target exam and delete the information from the database.	

Identifier	ADMN-QUES-008
Priority	Essential
Description: An admin shall be able to delete question[s] with multiple-choice answer[s] from any exam.	
Input: Name of the exam.	
Output: Question[s] and answer[s] deleted from the exam.	
Process: The system will delete the question[s] and its answer[s] from the target exam and delete the information from the database.	

Identifier	ADMN-QUES-009
Priority	Essential
Description: An admin shall be able to add an image to any question in any exam in the system.	
Input: The name of the exam, the target question and an image.	
Output: An Image added to the question in the given exam.	
Process: The system will add an image to the question in the target exam and save the information in the database.	

Identifier	ADMN-QUES-010
Priority	Essential
Description: An admin shall be able to review any image in any question of any exam in the system.	
Input: The name of the exam and the target question.	
Output: Image viewed.	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its answer[s] and images for the user.	

Identifier	ADMN-QUES-011
Priority	Essential
Description: An admin shall be able to edit any existing image in any question of any exam.	
Input: The name of the exam, the target question and the new image.	
Output: Image updated.	
Process: The system will update the new image to the question of the target exam in the database and save and update the information in the database.	

Identifier	ADMN-QUES-012
Priority	Essential
Description: An admin shall be able to delete any existing image of any exam.	
Input: The name of the exam and the target question.	
Output: Image deleted.	
Process: The system will delete the image to the target question[s] and delete the image from the database.	

Identifier	ADMN-ANSW-001
Priority	Essential
Description: An admin shall be able to add a multiple-choice answer[s] to any question.	
Input: The name of the exam.	
Output: Answer[s] added to the question.	
Process: The system will add the multiple-choice answer[s] to a question of the target exam and save the information in the database.	

Identifier	ADMN-ANSW-002
Priority	Essential
Description: An admin shall be able to change the answer[s] on any multiple-choice question.	
Input: Name of the exam.	
Output: Answer[s] updated for a question.	
Process: The system will update the answer[s] to a question in the target exam and save and update the information in the database.	

Identifier	ADMN-ANSW-003
Priority	Essential
Description: An admin shall be able to delete an answer from any multiple-choice question.	
Input: The name of the exam.	
Output: Answer deleted from the question.	
Process: The system will delete the answer to the target question and delete the information from the database.	

Identifier	ADMN-USER-001
Priority	Essential
Description: An admin shall be able to request a statistic report from a particular perspective.	
Input: The perspective.	
Output: Charts and tables.	
Process: The system will generate a statistic report according to the perspective..	

Identifier	ADMN-USER-002
Priority	Essential
Description: An admin shall be able to create user accounts.	
Input: User data.	
Output: User account registered.	
Process: The system will create an account for the user and save the information in the database.	

Identifier	ADMN-USER-003
Priority	Essential
Description: An admin shall be able to delete user accounts.	
Input: User information.	
Output: User account deleted.	
Process: The system will delete the user and delete the information from the database.	

Identifier	ADMN-USER-004
Priority	Essential
Description: An admin shall be able to update the information of user accounts.	
Input: User Information.	
Output: User account updated.	
Process: The system will update the user account and save and update the information in the database.	

Identifier	ADMN-USER-005
Priority	Essential
Description: An admin shall be able to read user data.	
Input: User Information.	
Output: Users data.	
Process: The system will retrieve the information of the user from the database and view the information.	

Identifier	ADMN-USER-006
Priority	Essential
Description: An admin shall be able to read user[s] by search.	
Input: Keywords.	
Output: User data matching the search keywords.	
Process: The system will retrieve the information that is related to the keyword from the database and view the user[s].	

Identifier	ADMN-USER-007
Priority	Essential
Description: An admin shall be able to filter the user data.	
Input: User data.	
Output: User[s].	
Process: The system will retrieve the information that is related to the filter data from the database and view it.	

Identifier	ADMN-USER-008
Priority	Essential
Description: An admin shall be able to change the role of a user.	
Input: The user data.	
Output: User role updated and permissions changed.	
Process: The system will update the role and the permission of the user and save the information in the database.	

2.1.2 Teach Requirements

Identifier	TCHR-EXAM-001
Priority	Essential
Description: A teacher shall be able to create an exam.	
Input: The name of the exam, the publication date and time, the deadline date and time and the duration time.	
Output: An online exam.	
Process: The system will create an online exam, and save the information in the database.	

Identifier	TCHR-EXAM-002
Priority	Essential
Description: A teacher shall be able to review an existing exam.	
Input: The name of the exam.	
Output: The existing exam.	
Process: The system will retrieve the information of the target exam from the database and view it for the user.	

Identifier	TCHR-EXAM-003
Priority	Essential
Description: A teacher shall be able to edit an existing exam.	
Input: The name of the exam and the information that need to be updated.	
Output: An updated online exam.	
Process: The system will update the target exam and save and update the information in the database.	

Identifier	TCHR-EXAM-004
Priority	Essential
Description: A teacher shall be able to delete an existing exam.	
Input: The name of the exam.	
Output: The exam removed from the system.	
Process: The system will delete the target exam and delete the information from the database.	

Identifier	TCHR-QUES-001
Priority	Essential
Description: A teacher shall be able to add textual question[s] to an exam that requires textual answer[s] from students.	
Input: Question[s].	
Output: Question[s] added to the given exam.	
Process: The system will add the question[s] to the target exam and save the information in the database.	

Identifier	TCHR-QUES-002
Priority	Essential
Description: A teacher shall be able to add question[s] with multiple-choice answer[s] to an exam that requires students to check the correct answer[s].	
Input: Question[s] and answer[s].	
Output: Question[s] with multiple-choice answer[s] added to the given exam.	
Process: The system will add the question[s] and the multiple-choice answer[s] to the target exam and save the information in the database.	

Identifier	TCHR-QUES-003
Priority	Essential
Description: A teacher shall be able to review existing textual question[s] in a existing exam.	
Input: The name of the exam.	
Output: The given exam with its question[s].	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its question[s] for the user.	

Identifier	TCHR-QUES-004
Priority	Essential
Description: A teacher shall be able to view existing question[s] with multiple-choice answer[s] in a existing exam.	
Input: The name of the exam.	
Output: The given exam with its question[s].	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its question[s] and answer[s] for the user.	

Identifier	TCHR-QUES-005
Priority	Essential
Description: A teacher shall be able to edit textual question[s] in existing exam.	
Input: The name of the exam and the question[s].	
Output: Question[s] updated in the given exam.	
Process: The system will update the question[s] in the target exam and save and update the information in the database.	

Identifier	TCHR-QUES-006
Priority	Essential
Description: A teacher shall be able to edit question[s] with multiple-choice answer[s] in an existing exam.	
Input: The name of the exam.	
Output: Question[s] and answer[s] updated in the given exam.	
Process: The system will update the question[s] and the answer[s] in the target exam and save and update the information in the database.	

Identifier	TCHR-QUES-007
Priority	Essential
Description: A teacher shall be able to delete textual question[s] from an existing exam.	
Input: The name of the exam.	
Output: Question[s] removed from the given exam.	
Process: The system will delete the question[s] from the target exam and delete the information from the database.	

Identifier	TCHR-QUES-008
Priority	Essential
Description: A teacher shall be able to delete question[s] with multiple-choice answer[s] from an existing exam.	
Input: The name of the exam.	
Output: Question[s] and answer[s] removed from the given exam.	
Process: The system will delete the question[s] and the answer[s] from the target exam and delete the information from the database.	

Identifier	TCHR-QUES-009
Priority	Essential
Description: A teacher shall be able to add an image to a question in an exam.	
Input: The name of the exam.	
Output: An image added to the question in the given exam.	
Process: The system will add an image to the question in the target exam and save information in the database.	

Identifier	TCHR-QUES-010
Priority	Essential
Description: A teacher shall be able to review an added image to a question in an exam.	
Input: The name of the exam.	
Output: Image viewed.	
Process: The system will retrieve the information of the target exam from the database and view the exam along with its answer[s] and images for the user.	

Identifier	TCHR-QUES-011
Priority	Essential
Description: A teacher shall be able to edit an existing image that was added to a question in an exam.	
Input: The name of the exam.	
Output: Image updated.	
Process: The system will update the new image to the question of the target exam in the database and save and update the information in the database.	

Identifier	TCHR-QUES-012
Priority	Essential
Description: A teacher shall be able to delete an existing image that was added to a question in an exam.	
Input: The name of the exam and the target question.	
Output: Image deleted.	
Process: The system will delete the image to the question[s] of the target exam and delete the image from the database.	

Identifier	TCHR-STUD-001
Priority	Essential
Description: A teacher shall be able to register a student in a exam.	
Input: The name of the exam and the student identification number.	
Output: Student registered to a given exam.	
Process: The system will register the student the the exam.	

Identifier	TCHR-STUD-002
Priority	Essential
Description: A teacher shall be able to un-register a student from a exam.	
Input: The name of the exam and the student identification number.	
Output: Student unregistered from a given exam.	
Process: The system will un-register the student from exam.	

Identifier	TCHR-GRAD-001
Priority	Essential
Description: A teacher shall be able to edit a grade.	
Input: The student identification number.	
Output: An updated grade.	
Process: The system will update the grade and save the information in the data base.	

Identifier	TCHR-GRAD-002
Priority	Essential
Description: A teacher shall be able to correct a exam and set the grade.	
Input: The name of the exam.	
Output: A graded exam.	
Process: The system will set the grade of the student and save the information in the database.	

Identifier	TCHR-GRAD-003
Priority	Essential
Description: A teacher shall be able to edit a grade that was set automatically by the system.	
Input: The student identification number.	
Output: An updated grade.	
Process: The system will update the grade and save the information in the database.	

Identifier	TCHR-STAT-001
Priority	Useful
Description: A teacher shall be able to retrieve a statistic report about the average number of students passed in a given exam.	
Input: Choosing the statistical perspective that is related to the average grade.	
Output: Report.	
Process: The system will generate a statistic report about the average grade.	

Identifier	TCHR-STAT-002
Priority	Useful
Description: A teacher shall be able to retrieve a statistic report about the number of participants in a given exam.	
Input: Choosing the statistical perspective that is related to the participants.	
Output: Report.	
Process: The system will generate a statistic report about the number of participants in a given exam.	

Identifier	TCHR-STAT-003
Priority	Useful
Description: A teacher shall be able to retrieve a statistic report about the common difficult question[s] in a given exam, where the majority of the participated students failed to answer the question[s] correctly.	
Input: Choosing the statistical perspective that is related to the difficult questions.	
Output: Report.	
Process: The system will generate a statistic report about the common difficult question[s] in a given exam.	

Identifier	TCHR-STAT-004
Priority	Useful
Description: A teacher shall be able to retrieve a statistic report about the distribution of the grades in a given exam.	
Input: Choosing the statistical perspective that is related to the distribution of the grades.	
Output: Report.	
Process: The system will generate a statistic report about the distribution of the grades.	

2.1.3 Student Requirements

Identifier	STUD-EXAM-001
Priority	Essential
Description: The student shall be able to view a list of the available exams after the student has logged in.	
Input:	
Output: List of the available exams.	
Process: The system will retrieve the exam[s] from the data base and view them for the student.	

Identifier	STUD-EXAM-002
Priority	Essential
Description: The student shall be able to view a list of the submitted exams after the student has logged in.	
Input:	
Output: List of the submitted exams.	
Process: The system will retrieve the submitted exams from the database and view them for the student	

Identifier	STUD-EXAM-003
Priority	Essential
Description: The student shall be able to view the exam instructions before taking the exam.	
Input: The given exam.	
Output: Exam instructions.	
Process: The system will view the instructions of the exam before starting the exam.	

Identifier	STUD-EXAM-004
Priority	Essential
Description: The student shall be able to start an examination from the list of the available exams.	
Input: List of available exams.	
Output: Started the given exam.	
Process: The system will start the selected exam, if the exam is allowed to be conducted at the given moment.	

Identifier	STUD-EXAM-005
Priority	Essential
Description: The student shall be able to view the time taken to finish an exam directly after the submission of the exam.	
Input: The name of the exam.	
Output: The duration of the conduct of the exam.	
Process: The system will view the information of the exam.	

Identifier	STUD-EXAM-006
Priority	Essential
Description: The student shall be able to view the remaining time of the exam during the exam period.	
Input: A started exam.	
Output: The remaining time of the exam.	
Process: The system will view the remaining time of the exam.	

Identifier	STUD-EXAM-007
Priority	Essential
Description: The student shall be able to submit an exam during the exam period.	
Input: A started exam.	
Output: A submitted exam.	
Process: The system will accept the submission and save the information in the database	

Identifier	STUD-EXAM-008
Priority	Essential
Description: The student shall be able to submit an examination without answering one or more questions.	
Input: A started exam.	
Output: A submitted exam.	
Process: The system will accept the submission and save the information in the database,	

Identifier	STUD-QUES-001
Priority	Essential
Description: The student shall be able to view the question and any image[s] belong to the question.	
Input: A started exam.	
Output: Question description with image[s] -if available.	
Process: The system will retrieve the exam from the database and view the exam and its information to the student.	

Identifier	STUD-QUES-002
Priority	Essential
Description: The student shall be able to view the instructions of every question, i.e. multiple-choice answer[s] or textual answers.	
Input: A started online exam.	
Output: Question instructions.	
Process: The system will retrieve the exam from the database and view the exam and its information to the student.	

Identifier	STUD-QUES-003
Priority	Essential
Description: The student shall be able to view the list of question[s] marked with a flag.	
Input: A started exam.	
Output: A list of questions marked with a flag.	
Process: The system will view the flagged question[s].	

Identifier	STUD-QUES-004
Priority	Essential
Description: The student shall be able to view the answered and the unanswered question[s] differently.	
Input: A started exam.	
Output: Two different views for the answered and the unanswered question[s].	
Process: The system will view the question[s] in two different perspectives; answered and unanswered.	

Identifier	STUD-QUES-005
Priority	Essential
Description: The student shall be able to mark a question with a flag for a specific reason.	
Input: A started exam.	
Output: A question marked with a flag	
Process: The system will mark the given question with a flag.	

Identifier	STUD-ANSW-001
Priority	Essential
Description: The student shall be able to choose answer[s] from multiple-choice question[s].	
Input: A started online exam.	
Output: One or more answer[s] are chosen.	
Process: The system will check the chosen answer[s].	

Identifier	STUD-ANSW-002
Priority	Essential
Description: The student shall be able to change choice[s] on multiple-choice question[s] during the exam period.	
Input: An answered multiple-choice question.	
Output: An updated multiple-choice answer.	
Process: The system will update and check the new answer[s].	

Identifier	STUD-ANSW-003
Priority	Essential
Description: The student shall be able to add answer[s] to textual question[s].	
Input: Text.	
Output: An updated textual question[s].	
Process: The system will add the given text as the answer for the question.	

Identifier	STUD-ANSW-004
Priority	Essential
Description: The student shall be able to edit answer[s] to the textual question[s] during the exam period.	
Input: An answered textual question[s].	
Output: Text.	
Process: The system will set the new text as the answer to the question.	

Identifier	STUD-ANSW-005
Priority	Essential
Description: The student shall be able to remove choice[s] on multiple-choices question[s] during the exam period.	
Input: An answered multiple-choices question.	
Output: An updated multiple-choice question.	
Process: The system will uncheck the question[s].	

Identifier	STUD-ANSW-006
Priority	Essential
Description: The student shall be able to remove answer[s] to the textual question[s] during the exam period.	
Input: An answered textual question[s].	
Output: An unanswered textual question[s].	
Process: The system will remove the answer of the question.	

Identifier	STUD-CMNT-001
Priority	Essential
Description: The student shall be able to add comments to every question during the exam period.	
Input: Textual or multiple-choice question[s].	
Output: Textual or multiple-choice question[s] with student comments.	
Process: The system will add the comment to the given question.	

Identifier	STUD-CMNT-002
Priority	Essential
Description: The student shall be able to edit comments on every question during the exam period.	
Input: Textual or multiple-choice question[s] with comments.	
Output: An updated textual or multiple-choice question[s] with student comments.	
Process: The system will update the comment for the given question.	

Identifier	STUD-CMNT-003
Priority	Essential
Description: The student shall be able to remove comments from every question on the exam.	
Input: Textual or multiple-choice question[s] with comments.	
Output: An updated textual or multiple-choice question[s] with no comments.	
Process: The system will remove the comment from the given question.	

Identifier	STUD-GRAD-001
Priority	Essential
Description: The student shall be able to view the grade automatically after the submission of an only multiple-choice exam.	
Input: The name of the exam.	
Output: Result of the exam.	
Process: The system will view the grade.	

Identifier	STUD-FDBK-001
Priority	Essential
Description: The student shall be able to view a list of available feedbacks from the teachers.	
Input:	
Output: List of available feedbacks.	
Process: The system will view the feedbacks of the teachers.	

2.1.4 User Requirements

Identifier	USER-AUTH-001
Priority	Essential
Description: The user shall be able to login to the system.	
Input: E-mail and password.	
Output: Login.	
Process: The system will log the user to the system in after authentication.	

Identifier	USER-AUTH-002
Priority	Essential
Description: The user shall be able to logout from their account.	
Input: Logout.	
Output: Logging out is done successfully.	
Process: The system will log the user out from the account.	

Identifier	USER-AUTH-003
Priority	Essential
Description: The user shall be able to reset their password.	
Input: E-mail.	
Output: The user receives an email contains a link to reset its password.	
Process: The system will send a link to the user that can enable them to reset the password.	

Identifier	USER-AUTH-004
Priority	Essential
Description: The user shall be able to edit its profile.	
Input: User profile.	
Output: Updated user profile.	
Process: The system will update the profile after authentication.	

2.2 Non-functional Requirements

The following subsections will describe the non-functional requirements and divide them into three categories.

2.2.1 Privacy

Identifier	NFRQ-PRVC-001
Priority	Essential
Description: The system shall conform the GDPR.	

2.2.2 Security

Identifier	NFRQ-SECU-001
Priority	Essential
Description: The system shall use strong security measures by applying the SSL certificate.	

2.2.3 Performance

Identifier	NFRQ-PERF-001
Priority	Essential
Description: The home page shall be loaded in less than two seconds.	

3 Systematic Requirements Analysis

This section shows the requirements analysis and the checklist that is the basis for the review.

3.1 Checklist

The following checklist is used for the analysis.

ID	Name	Description
A1	Premature design	Does the requirement include premature design or implementation information?
A2	Combined requirements	Could the description of a requirement be broken down into several different requirements?
A3	Unnecessary requirements	Is the requirement 'gold plating'? That is, a cosmetic addition to the system which is not really necessary.
A4	Use of non-standard hardware	Does the requirement mean that non-standard hardware or software must be used?
A5	Conformance with business goals	Is the requirement consistent with the business goals defined in the introduction to the requirements document?
A6	Requirements ambiguity	Is the requirement ambiguous, i.e., could it be read in different ways by different people?
A7	Requirements realism	Is the requirement realistic given the technology which will be used to implement the system?
A8	Requirements testability	Is the requirement testable, that is, is it stated in such a way that test engineers can derive a test which can show if the system meets that requirement?

3.2 Results

The following table shows the result of requirements analysis based on the checklist. The character "X" reflects that there is an issue with the requirements.

3.2.1 Admin Requirements

Requirement ID	A1	A2	A3	A4	A5	A6	A7	A8
ADMN-EXAM-001						X		
ADMN-EXAM-002								
ADMN-EXAM-003								
ADMN-EXAM-004								
ADMN-QUES-001								
ADMN-QUES-002								
ADMN-QUES-003								
ADMN-QUES-004								
ADMN-QUES-005								
ADMN-QUES-006								
ADMN-QUES-007								
ADMN-QUES-008								
ADMN-QUES-009								
ADMN-QUES-010								
ADMN-QUES-011								
ADMN-QUES-012								
ADMN-USER-001								
ADMN-USER-002								
ADMN-USER-003								
ADMN-USER-004								
ADMN-USER-005								
ADMN-USER-006								
ADMN-USER-007								
ADMN-USER-008								
ADMN-ANSW-001								
ADMN-ANSW-002								
ADMN-ANSW-003								

3.2.2 Teacher Requirements

Requirement ID	A1	A2	A3	A4	A5	A6	A7	A8
TCHR-EXAM-001								
TCHR-EXAM-002								
TCHR-EXAM-003								
TCHR-EXAM-004								
TCHR-QUES-001								
TCHR-QUES-002								
TCHR-QUES-003

STUD-CMNT-002								
STUD-CMNT-003								
STUD-GRAD-001								
STUD-FDBK-001						X		

3.2.4 User Requirements

Requirement ID	A1	A2	A3	A4	A5	A6	A7	A8
USER-AUTH-001						X		
USER-AUTH-002								
USER-AUTH-003								
USER-AUTH-004								

3.2.5 Non-functional Requirements

Requirement ID	A1	A2	A3	A4	A5	A6	A7	A8
NFRQ-PRVC-001								
NFRQ-SECU-001								
NFRQ-PERF-001								

3.3 Analysis and Amendments

Requirement	ADMN-EXAM-001
Problem	Ambiguous.
New	An admin shall create an exam.
New	An admin shall create an exam for any teacher.
Solution	The statement should be specific and unambiguous.

Requirement	TCHR-STAT-003
Problem	Ambiguous.
Old	A teacher shall be able to retrieve a statistic report about the common difficult questions.
New	A teacher shall be able to retrieve a statistic report about the common difficult question[s] in a given exam, where the majority of the participated students failed to answer the question[s] correctly.
Solution	The statement should be specific and unambiguous.

Requirement	STUD-FDBK-001
Problem	Ambiguous.
Old	The student shall be able to view feedbacks.
New	The student shall be able to view a list of available feedbacks from the teachers.
Solution	The statement should be specific and unambiguous.

Requirement	USER-AUTH-001
Problem	Ambiguous.
Old	The user can login.
New	The user shall be able to login to the system.
Solution	The statement should be specific and unambiguous.

4 Classification using faceted approach

The facets are used to classify the requirements are: System, User Interface, Database, Communication, and Security. The following table presents the classification according the facets.

4.1 Admin Requirements Classification

Requirement ID	System	UI	Database	Communication	Security
ADMN-EXAM-001	X	X	X		X
ADMN-EXAM-002	X	X	X		X
ADMN-EXAM-003	X	X	X		X
ADMN-QUES-001	X	X	X		
ADMN-QUES-002	X	X	X		
ADMN-QUES-003	X	X	X		
ADMN-QUES-004	X	X	X		
ADMN-QUES-005	X	X	X		
ADMN-QUES-006	X	X	X		
ADMN-QUES-007	X	X	X		
ADMN-QUES-008	X	X	X		
ADMN-QUES-009	X	X	X		X
ADMN-QUES-010	X	X	X		X
ADMN-QUES-011	X	X	X		X
ADMN-QUES-012	X	X	X		X
ADMN-USER-001	X	X			
ADMN-USER-002	X	X	X		X
ADMN-USER-003	X	X	X		X
ADMN-USER-004	X	X	X		X
ADMN-USER-005	X		X		X
ADMN-USER-006	X	X	X		X
ADMN-USER-007	X	X			X
ADMN-USER-008	X	X	X		X
ADMN-ANSW-001	X	X	X		X
ADMN-ANSW-002	X	X	X		X
ADMN-ANSW-003	X	X	X		X

4.2 Teacher Requirements Classification

Requirement ID	System	UI	Database	Communication	Security
TCHR-EXAM-001	X	X	X		X
TCHR-EXAM-002	X	X	X		X
TCHR-EXAM-003	X	X	X		X
TCHR-EXAM-004	X	X	X		X
TCHR-EXAM-004	X	X	X		X
TCHR-QUES-001	X	X	X		
TCHR-QUES-002	X	X	X		
TCHR-QUES-003	X	X	X		
TCHR-QUES-004	X	X	X		
TCHR-QUES-005	X	X	X		
TCHR-QUES-006	X	X	X		
TCHR-QUES-007	X	X	X		
TCHR-QUES-008	X	X	X		
TCHR-STAT-001	X	X	X	X	
TCHR-STAT-002	X		X	X	
TCHR-STAT-003	X		X	X	
TCHR-STAT-004	X		X	X	
TCHR-GRAD-002	X	X	X	X	
TCHR-GRAD-001	X	X	X	X	
TCHR-GRAD-003	X	X	X	X	
TCHR-QUES-009	X	X	X		
TCHR-QUES-010	X	X	X		
TCHR-QUES-011	X	X	X		
TCHR-QUES-012	X	X	X		
TCHR-STUD-001	X	X	X	X	X
TCHR-STUD-002	X	X	X	X	X

4.3 Student Requirements Classification

Requirement ID	System	UI	Database	Communication	Security
STUD-EXAM-001	X	X	X		X
STUD-EXAM-002	X	X	X		X
STUD-EXAM-003	X	X	X		X
STUD-EXAM-004	X		X	X	X
STUD-EXAM-005	X	X	X		
STUD-EXAM-006	X	X	X		
STUD-EXAM-007	X	X	X		X
STUD-EXAM-008	X	X	X		X
STUD-QUES-001	X	X			
STUD-QUES-002	X	X	X		
STUD-QUES-003	X	X	X		
STUD-QUES-004	X	X			
STUD-QUES-005	X	X	X		
STUD-ANSW-001	X	X	X		
STUD-ANSW-002	X	X	X		
STUD-ANSW-003	X	X	X		
STUD-ANSW-004	X	X	X		
STUD-ANSW-005	X	X	X		
STUD-ANSW-006	X	X	X	X	
STUD-CMNT-001	X	X	X		
STUD-CMNT-002	X	X	X		
STUD-CMNT-003	X	X	X		
STUD-GRAD-001	X	X	X	X	X
STUD-FDBK-001	X	X	X	X	

4.4 User Requirements Classification

Requirement ID	System	UI	Database	Communication	Security
USER-AUTH-001	X	X	X		X
USER-AUTH-002	X	X	X		X
USER-AUTH-003	X	X	X		X
USER-AUTH-004	X	X	X		X

4.5 Non-functional Requirements Classification

Requirement ID	System	UI	Database	Communication	Security
NFRQ-PRVC-001	X		X		
NFRQ-SECU-001	X		X	X	X
NFRQ-PERF-001	X			X	

5 Risk assessment

This section shows the risk types, levels and assessment for the requirements.

5.1 Types

ID	Name	Description
R1	Performance	May affect the overall performance of the system.
R2	Safety and security	May cause problems in meeting overall system requirements for safety and security.
R3	Process	May require changes to the normal development process.
R4	Implementation technology	May require the use of unfamiliar implementation technology, such as AI techniques, the use of N-version programming for fault tolerance, etc.
R5	Database	May involve non-standard data which is not available in an existing system database.
R6	Schedule	May be technically difficult and may threaten the planned development schedule for the system.
R7	External	Involves external contractors.
R8	Stability	Requirement may be volatile and subject to evolution during the development process.

5.2 Levels

ID	Name	Description
H	High	High risk
M	Medium	Medium risk.
L	Low	Low risk
N	None	No risk

5.3 Assessment

This section describes the requirements risk assessment.

5.3.1 Admin Requirements

Requirement ID	R1	R2	R3	R4	R5	R6	R7	R8
ADMN-EXAM-001		X	X					
ADMN-EXAM-002		X	X					
ADMN-EXAM-003		X	X					
ADMN-EXAM-004		X	X					
ADMN-QUES-001		X						
ADMN-QUES-002		X						
ADMN-QUES-003		X						
ADMN-QUES-004		X						
ADMN-QUES-005		X						
ADMN-QUES-006		X						
ADMN-QUES-007		X						
ADMN-QUES-008		X						
ADMN-USER-001		X	X			X		X
ADMN-USER-002		X						
ADMN-USER-003		X						
ADMN-USER-004		X						
ADMN-USER-005		X						
ADMN-USER-006		X						
ADMN-USER-007		X						
ADMN-USER-008		X				X		X
ADMN-ANS-001		X						
ADMN-ANS-002		X						
ADMN-ANS-003		X						

5.3.2 Teacher Requirements

Requirement ID	R1	R2	R3	R4	R5	R6	R7	R8
TCHR-EXAM-001		X	X					
TCHR-EXAM-002		X	X					
TCHR-EXAM-003		X	X					
TCHR-EXAM-004		X	X					
TCHR-QUES-001		X						
TCHR-QUES-002		X						
TCHR-QUES-003		X

STUD-CMNT-001			X					
STUD-CMNT-002			X					
STUD-CMNT-003			X					
STUD-GRAD-001			X	X				
STUD-FDBK-001								

5.3.4 User Requirements

Requirement ID	R1	R2	R3	R4	R5	R6	R7	R8
USER-AUTH-001		X						
USER-AUTH-002								
USER-AUTH-003		X	X			X	X	
USER-AUTH-004		X						

5.3.5 Non-functional Requirements

Requirement ID	R1	R2	R3	R4	R5	R6	R7	R8
NFRQ-PRVC-001							X	
NFRQ-SECU-001	X	X		X				
NFRQ-PERF-001	X							X

5.4 Risk Level

This section describes the requirements risk level.

5.4.1 Admin Requirements

Requirement Identifier	Risk Level
ADMN-EXAM-001	Low
ADMN-EXAM-002	Low
ADMN-EXAM-003	Low
ADMN-EXAM-004	Low
ADMN-QUES-001	Low
ADMN-QUES-002	Low
ADMN-QUES-003	Low
ADMN-QUES-004	Low
ADMN-QUES-005	Low
ADMN-QUES-006	Low
ADMN-QUES-007	Low
ADMN-QUES-008	Low
ADMN-QUES-009	Low
ADMN-QUES-010	Low
ADMN-QUES-011	Low
ADMN-QUES-012	Low
ADMN-USER-001	Medium
ADMN-USER-002	Low
ADMN-USER-003	Low
ADMN-USER-004	Low
ADMN-USER-005	Low
ADMN-USER-006	Low
ADMN-USER-007	Medium
ADMN-USER-008	Medium
ADMN-ANSW-001	Low
ADMN-ANSW-002	Low
ADMN-ANSW-003	Low

5.4.2 Teacher Requirements

Requirement Identifier	Risk Level
TCHR-EXAM-001	Low
TCHR-EXAM-002	Low
TCHR-EXAM-003	Low
TCHR-EXAM-004	Low
TCHR-QUES-001	Low
TCHR-QUES-002	Low
TCHR-QUES-003	Low
TCHR-QUES-004	Low
TCHR-QUES-005	Low
TCHR-QUES-006	Low
TCHR-QUES-007	Low
TCHR-QUES-008	Low
TCHR-QUES-009	Low
TCHR-QUES-010	Low
TCHR-QUES-011	Low
TCHR-QUES-012	Low
TCHR-STAT-001	Medium
TCHR-STAT-002	Medium
TCHR-STAT-003	Medium

NFRQ-PERF-001	High

6 Systematic Validation

A pre-defined checklist is used to check the identified requirements and discover possible problems with them.

6.1 Checklist

ID	Keyword	Description
V1	complete	Are the requirements complete – does the checker know of any missing requirements or is there any information missing from individual requirement descriptions?
V2	consistent	Are the requirements consistent – do the descriptions of different requirements include contradictions?
V3	comprehensible	Are the requirements comprehensible – can readers of the document understand what the requirements mean?
V4	ambiguous	Are the requirements ambiguous – are there different possible interpretations of the requirements?
V5	structured	Is the requirements document structured – are the descriptions of requirements organized so that related requirements are grouped?
V6	traceable	Are the requirements traceable – do the requirements include links to related requirements and to the reasons why these requirements have been included?
V7	standards	Does the requirements document as a whole, or do the individual requirements conform to defined standards ?

6.2 Results

This section describes the results of the requirements validation.

6.3 Observations and modifications

The requirements were successfully validated, and the results do not show there are any issues with the final set of the requirements. Therefore, no modifications are required at this time.

7 Traceability Information

This section contains information about the types of the traceability information to find dependencies. Types include Requirements-Rationale and Requirements-Requirements.

7.1 Requirements-Rationale

Links the requirement with a description of why that requirement has been specified.

7.1.1 Admin Requirements

Requirement ID	Description
ADMN-EXAM-001	To allow admins to create exams.
ADMN-EXAM-002	To allow admins to review exams.
ADMN-EXAM-003	To allow admins to update exams.
ADMN-EXAM-004	To allow admins to delete exams.
ADMN-QUES-001	To allow admins to add textual questions to exams.
ADMN-QUES-002	To allow admins to add questions with multiple-choices to exams.
ADMN-QUES-003	To allow admins to review textual questions from exams.
ADMN-QUES-004	To allow admins to review questions with multiple-choices.
ADMN-QUES-005	To allow admins to update textual questions in exams.
ADMN-QUES-006	To allow admins to update questions with multiple-choices in exams.
ADMN-QUES-007	To allow admins to delete textual questions from exams.
ADMN-QUES-008	To allow admins to delete questions with multiple-choices from exams.
ADMN-QUES-009	To allow admins to add images to any question of any existing exam.
ADMN-QUES-010	To allow admins to review all images in any question in any existing exam.
ADMN-QUES-011	To allow admins to delete any image in any question of any existing exam.
ADMN-QUES-012	To allow admins to delete any image in any question of any existing exam.
ADMN-USER-001	To allow admins to see various statistics about users.
ADMN-USER-002	To allow admins to create a user account,
ADMN-USER-003	To allow admins to delete a user account,
ADMN-USER-004	To allow admins to update a user account.
ADMN-USER-005	To allow admins to read textual data of a user account
ADMN-USER-006	To allow admins to find users quickly.
ADMN-USER-007	To allow admins to filter for users
ADMN-USER-008	To allow admins to change a user role.
ADMN-ANSW-001	To allow admins to add multiple-choice answers in a question.
ADMN-ANSW-002	To allow admins to change multiple-choice answers in a question.
ADMN-ANSW-003	To allow admins to delete multiple-choice answers in a question.

7.1.2 Teacher Requirements

Requirement ID	Description
TCHR-EXAM-001	To allow teachers to create exams.
TCHR-EXAM-002	To allow teachers to review exams.
TCHR-EXAM-003	To allow teachers to update exams.
TCHR-EXAM-004	To allow teachers to delete exams.
TCHR-QUES-001	To allow teachers to add textual questions to exams.
TCHR-QUES-002	To allow teachers to add questions with multiple-choices to exams.
TCHR-QUES-003	To allow teachers to review textual questions from exams.
TCHR-QUES-004	To allow teachers to review questions with multiple-choices.
TCHR-QUES-005	To allow teachers to update textual questions in exams.
TCHR-QUES-006	To allow teachers to update questions with multiple-choices in exams.
TCHR-QUES-007	To allow teachers to delete textual questions from exams.
TCHR-QUES-008	To allow teachers to delete questions with multiple-choices from exams.
TCHR-QUES-009	To allow teachers to add images to questions.
TCHR-QUES-010	To allow teachers to review added images to questions.
TCHR-QUES-011	To allow teachers to update added images to questions.
TCHR-QUES-012	To allow teachers to delete images from questions.
TCHR-STAT-001	To allow teachers to get a statistics report from a specific perspective.
TCHR-STAT-002	To allow teachers to get a statistics report from a specific perspective.
TCHR-STAT-003	To allow teachers to get a statistics report from a specific perspective.
TCHR-STAT-004	To allow teachers to get a statistics report from a specific perspective.
TCHR-GRAD-002	To allow teachers to set the grades of students.
TCHR-GRAD-001	To allow teachers to edit the grades of students.
TCHR-GRAD-003	To allow teachers to edit the grades that were set by the system.
TCHR-STUD-001	To allow teachers to register students.
TCHR-STUD-002	To allow teachers to un-register students.

7.1.3 Students Requirements

Requirement ID	Description
STUD-EXAM-001	To allow students to view a list of available exams.
STUD-EXAM-002	To allow students to view a list of the submitted exams.
STUD-EXAM-003	To allow students to view the exam instructions.
STUD-EXAM-004	To allow students to start an examination from the list of available exams.
STUD-EXAM-005	To allow students to view the time taken to finish an exam.
STUD-EXAM-006	To allow students to view the remaining time of the exam during the exam period.
STUD-EXAM-007	To allow students able to submit an exam.
STUD-EXAM-008	To allow students to submit an examination without answering one or more questions.
STUD-QUES-001	To allow students to view the question and any images (if available) clearly.
STUD-QUES-002	To allow students to view the instructions of every question.
STUD-QUES-003	To allow students to view the list of questions marked with a flag.
STUD-QUES-004	To allow students to view the answered and unanswered question differently.
STUD-QUES-005	To allow students to mark a question with a flag for a specific reason.
STUD-ANSW-001	To allow students to choose answer[s] from multiple-choices questions.
STUD-ANSW-002	To allow students to change choice[s] on multiple-choices questions.
STUD-ANSW-003	To allow students to add answer[s] to textual question[s].
STUD-ANSW-004	To allow students to edit answer[s] to the textual question[s].
STUD-ANSW-005	To allow students to remove choice[s] on multiple-choices questions.
STUD-ANSW-006	To allow students to remove answer[s] to the textual question[s].
STUD-CMNT-001	To allow students to add comments to a question.
STUD-CMNT-002	To allow students to edit comments on a question.
STUD-CMNT-003	To allow students to remove comments from a question.
STUD-GRAD-001	To allow students to view the grade automatically after the submission of an only multiple-choices exam.
STUD-FDBK-001	To allow students to view a list of available feedbacks.

7.1.4 User Requirements

Requirement ID	Description
USER-AUTH-001	To allow user to login to the system.
USER-AUTH-002	To allow user to logout from the system.
USER-AUTH-003	To allow user to reset its password.
USER-AUTH-004	To allow user to edit its profile.

7.1.5 Non-functional Requirements

Requirement ID	Description
NFRQ-PRVC-001	To conform with the laws.
NFRQ-SECU-001	To provide a secure connection between the client and the system.
NFRQ-PERF-001	To make the system applicable to the user.

7.2 Requirements-Requirements

Links requirements with other requirements which are, in some way, dependent on them. The following table shows the dependencies between the requirements.

7.2.1 Admin Requirements

Requirement	Depends-on
ADMN-EXAM-001	
ADMN-EXAM-002	ADMN-EXAM-001, TCHR-EXAM-001
ADMN-EXAM-003	ADMN-EXAM-001, TCHR-EXAM-001
ADMN-EXAM-004	ADMN-EXAM-001, TCHR-EXAM-001
ADMN-QUES-001	ADMN-EXAM-001, TCHR-EXAM-001
ADMN-QUES-002	ADMN-EXAM-001, TCHR-EXAM-001
ADMN-QUES-003	TCHR-EXAM-001, TCHR-QUES-001, ADMN-EXAM-001, ADMN-QUES-001
ADMN-QUES-004	ADMN-EXAM-001, ADMN-QUES-002, TCHR-EXAM-001, TCHR-QUES-002
ADMN-QUES-005	TCHR-EXAM-001, TCHR-QUES-001, ADMN-EXAM-001, ADMN-QUES-001
TCHR-QUES-006	TCHR-EXAM-001, TCHR-QUES-002
ADMN-QUES-006	ADMN-EXAM-001, ADMN-QUES-002, TCHR-EXAM-001, TCHR-QUES-002
ADMN-QUES-007	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-001, ADMN-EXAM-001, ADMN-QUES-001
ADMN-QUES-008	ADMN-EXAM-001, ADMN-QUES-002, TCHR-EXAM-001, TCHR-QUES-002
ADMN-QUES-009	TCHR-EXAM-001, TCHR-QUES-001, ADMN-EXAM-001, ADMN-QUES-001
ADMN-QUES-010	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010, ADMN-EXAM-001, ADMN-QUES-001, ADMN-QUES-010
ADMN-QUES-011	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010, ADMN-EXAM-001, ADMN-QUES-001, ADMN-QUES-010
ADMN-QUES-012	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010, ADMN-EXAM-001, ADMN-QUES-001, ADMN-QUES-010
ADMN-USER-001	ADMN-USER-002
ADMN-USER-002	
ADMN-USER-003	ADMN-USER-002
ADMN-USER-004	ADMN-USER-002, ADMN-USER-008
ADMN-USER-005	ADMN-USER-002
ADMN-USER-006	ADMN-USER-005, ADMN-USER-002
ADMN-USER-007	ADMN-USER-005, ADMN-USER-002
ADMN-USER-008	
ADMN-ANSW-001	ADMN-EXAM-001, TCHR-EXAM-001, ADMN-QUES-002, TCHER-QUES-002
ADMN-ANSW-002	ADMN-EXAM-001, TCHR-EXAM-001, ADMN-QUES-002, TCHER-QUES-002, ADM-ANSW-001
ADMN-ANSW-003	ADMN-EXAM-001, TCHR-EXAM-001, ADMN-QUES-002, TCHER-QUES-002, ADM-ANSW-001

7.2.2 Teacher Requirements

Requirement	Depends-on
TCHR-EXAM-001	
TCHR-EXAM-002	TCHR-EXAM-001
TCHR-EXAM-003	TCHR-EXAM-001
TCHR-EXAM-004	TCHR-EXAM-001
TCHR-QUES-001	TCHR-EXAM-001
TCHR-QUES-002	TCHR-EXAM-001
TCHR-QUES-003	TCHR-EXAM-001, TCHR-QUES-001
TCHR-QUES-004	TCHR-EXAM-001, TCHR-QUES-002
TCHR-QUES-005	TCHR-EXAM-001, TCHR-QUES-001
TCHR-QUES-007	TCHR-EXAM-001, TCHR-QUES-001
TCHR-QUES-008	TCHR-EXAM-001, TCHR-QUES-002
TCHR-QUES-009	TCHR-EXAM-001, TCHR-QUES-001
TCHR-QUES-010	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010
TCHR-QUES-011	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010
TCHR-QUES-012	TCHR-EXAM-001, TCHR-QUES-001, TCHR-QUES-010
TCHR-STAT-001	TCHR-EXAM-001
TCHR-STAT-002	TCHR-EXAM-001
TCHR-STAT-003	TCHR-EXAM-001
TCHR-STAT-004	TCHR-EXAM-001
TCHR-GRAD-001	TCHR-EXAM-001, TCHR-QUES-001
TCHR-GRAD-002	TCHR-EXAM-001, TCHR-QUES-001
TCHR-GRAD-003	TCHR-EXAM-001, TCHR-QUES-002
TCHR-STUD-001	
TCHR-STUD-002	TCHR-STUD-001

7.2.3 Student Requirements

Requirement	Depends-on
STUD-EXAM-001	ADMN-EXAM-001, TCHR-EXAM-001
STUD-EXAM-002	STUD-EXAM-004, STUD-EXAM-007, STUD-EXAM-008
STUD-EXAM-003	
STUD-EXAM-004	ADMN-EXAM-001, TCHR-EXAM-001
STUD-EXAM-005	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001
STUD-EXAM-006	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001
STUD-EXAM-007	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, TCHR-QUES-002, ADMN-QUES-002
STUD-EXAM-008	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, TCHR-QUES-002, ADMN-QUES-002
STUD-QUES-001	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001
STUD-QUES-002	
STUD-QUES-003	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, STUD-QUES-005
STUD-QUES-004	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, STUD-ANSW-001, STUD-ANSW-003
STUD-QUES-005	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001
STUD-ANSW-001	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-002, ADMN-QUES-002
STUD-ANSW-002	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-002, ADMN-QUES-002, STUD-ANSW-001
STUD-ANSW-003	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001
STUD-ANSW-004	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, STUD-ANSW-003
STUD-ANSW-005	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-002, ADMN-QUES-002, STUD-ANSW-001
STUD-ANSW-006	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, STUD-ANSW-003
STUD-CMNT-001	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, TCHR-QUES-002, ADMN-QUES-002
STUD-CMNT-002	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, TCHR-QUES-002, ADMN-QUES-002, STUD-CMNT-001
STUD-CMNT-003	STUD-EXAM-004, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-001, ADMN-QUES-001, TCHR-QUES-002, ADMN-QUES-002, STUD-CMNT-001
STUD-GRAD-001	STUD-EXAM-004, STUD-EXAM-007, ADMN-EXAM-001, TCHR-EXAM-001, TCHR-QUES-002, ADMN-QUES-002, STUD-ANSW-001

7.2.4 User Requirements

Requirement	Depends-on
USER-AUTH-001	
USER-AUTH-002	USER-AUTH-001
USER-AUTH-003	USER-AUTH-001, USER-AUTH-002
USER-AUTH-004	USER-AUTH-001

7.2.5 Non-functional Requirements

Requirement	Depends-on
NFRQ-PRVC-001	
NFRQ-SECU-001	
NFRQ-PERF-001	

8 Completed Requirements

Because the resources were limited -especially the time frame, that implies not all the requirements were implemented and completed. This section describes the completed and the uncompleted requirements.

8.1 Admin Requirements

8.4 User Requirements

Requirement ID	Completed	Uncompleted
USER-AUTH-001	X	
USER-AUTH-002	X	
USER-AUTH-003	X	
USER-AUTH-004	X	

8.5 Non-functional Requirements

Requirement ID	Completed	Uncompleted
NFRQ-PRVC-001	X	
NFRQ-SECU-001	X	
NFRQ-PERF-001	X	

9 Test cases

This section includes the proposed test cases for the requirements defined previously.

9.1 Admin Requirements

This section describes the test cases for the Admin requirements.

9.1.1 Test Case 1

Identification	TC 1
Requirement	ADMN-EXAM-001
Date	2020-04-10
Goal	Successfully create an exam.
Description	Admin creating a new exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Create a new exam.
Input	Valid credentials for the admin
Expected Result	The exam is inserted into database.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to create an exam.

9.1.2 Test Case 2

Identification	TC 2
Requirement	ADMN-EXAM-002
Date	2020-04-10
Goal	Successfully view all the exams in the system.
Description	Admin viewing all the exams.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. View exams.
Input	Valid credentials for the admin
Expected Result	All the exams in the system are shown
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to show all the exams on the system.

9.1.3 Test Case 3

Identification	TC 3
Requirement	ADMN-EXAM-003
Date	2020-04-10
Goal	Successfully edit any existing exam in the system.
Description	Admin editing any existing exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam5. Edit exam6. Save changes
Input	Valid credentials for the admin
Expected Result	Exam changes accordingly
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to edit any existing exam.

9.1.4 Test Case 4

Identification	TC 4
Requirement	ADMN-EXAM-004
Date	2020-04-10
Goal	Sucessfully delete any existing exam.
Description	Admin deleting any existing exam in the system.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam5. Delete exam
Input	Valid credentials for the admin
Expected Result	The exam is deleted.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to delete any existing exam.

9.1.5 Test Case 5

Identification	TC 5
Requirement	ADMN-QUES-001
Date	2020-04-10
Goal	Successfully add a question that require textual answer in any given exam in the system.
Description	Admin adding a question that require textual answer to any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Add question with textual answers.
Input	Valid credentials for the admin
Expected Result	The question is added to the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to add a question with textual answer to any given exam in the system.

9.1.6 Test Case 6

Identification	TC 6
Requirement	ADMN-QUES-002
Date	2020-04-10
Goal	Successfully add a question that require multiple-choice answers in any given exam in the system.
Description	Admin adding a question that require multiple-choice answers to any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Add question that requires multiple-choice answers.6. Add answers.
Input	Valid credentials for the admin
Expected Result	The question is added to the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to add a question with multiple-choice answers to any given exam in the system.

9.1.7 Test Case 7

Identification	TC 7
Requirement	ADMN-QUES-003
Date	2020-04-10
Goal	Successfully view any question requiring textual answer in any exam.
Description	Admin viewing a question requiring textual answer.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. View question requiring textual answer.
Input	Valid credentials for the admin
Expected Result	The question is added to the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to view a textual question.

9.1.8 Test Case 8

Identification	TC 8
Requirement	ADMN-QUES-004
Date	2020-04-10
Goal	Successfully view any question requiring multiple-choice answer in any exam.
Description	Admin viewing a question requiring multiple-choice answer.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. View question requiring multiple-choice answer.
Input	Valid credentials for the admin
Expected Result	The question is added to the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to view any multiple-choice question.

9.1.9 Test Case 9

Identification	TC 9
Requirement	ADMN-QUES-005
Date	2020-04-10
Goal	Successfully edit any textual question.
Description	Admin editing any textual question in any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Edit question requiring textual answer.
Input	Valid credentials for the admin
Expected Result	The question is edited.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to edit any textual question.

9.1.10 Test Case 10

Identification	TC 10
Requirement	ADMN-QUES-006
Date	2020-04-10
Goal	Successfully edit any multiple-choice question.
Description	Admin editing any multiple-choice question in any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Edit question requiring multiple-choice answers.
Input	Valid credentials for the admin
Expected Result	The question is edited.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to edit any multiple-choice question.

9.1.11 Test Case 11

Identification	TC 11
Requirement	ADMN-QUES-007
Date	2020-04-10
Goal	Successfully delete a textual question.
Description	Admin deleting any textual question from any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. delete question requiring textual answers.
Input	Valid credentials for the admin
Expected Result	The question deleted from the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to remove a textual question from any exam.

9.1.12 Test Case 12

Identification	TC 12
Requirement	ADMN-QUES-008
Date	2020-04-10
Goal	Successfully delete a multiple-choice question.
Description	Admin deleting any multiple-choice question from any exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. delete question requiring multiple-choice answers.
Input	Valid credentials for the admin
Expected Result	The question deleted from the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to remove a multiple-choice question from any exam.

9.1.13 Test Case 13

Identification	TC 13
Requirement	ADMN-ANSW-001
Date	2020-04-10
Goal	Successfully add an answer to any multiple-choice question in any exam with multiple-choice questions.
Description	Admin adding an answer to a multiple-choice question.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick any exam.5. Pick any multiple-choice question.6. Add answer.
Input	Valid credentials for the admin
Expected Result	The question deleted from the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to add an answer to any multiple-choice question in any exam.

9.1.14 Test Case 14

Identification	TC 14
Requirement	ADMN-ANSW-002
Date	2020-04-10
Goal	Successfully change an answer to any multiple-choice question in any exam with multiple-choice questions.
Description	Admin changing an answer to a multiple-choice question.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick any exam.5. Pick any multiple-choice question.6. Change answer.
Input	Valid credentials for the admin
Expected Result	The question deleted from the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to change an answer to any multiple-choice question in any exam.

9.1.15 Test Case 15

Identification	TC 15
Requirement	ADMN-ANSW-003
Date	2020-04-10
Goal	Successfully delete an answer to any multiple-choice question in any exam with multiple-choice questions.
Description	Admin deleting an answer to a multiple-choice question.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick any exam.5. Pick any multiple-choice question.6. Delete answer.
Input	Valid credentials for the admin
Expected Result	The question deleted from the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to delete an answer to any multiple-choice question in any exam.

9.1.16 Test Case 16

Identification	TC 16
Requirement	ADMN-USER-001
Date	2020-04-10
Goal	Successfully view user statistics.
Description	Admin viewing user statistics
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. View user statistics
Input	Valid credentials for the admin
Expected Result	User statistics is shown.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to show user statistics.

9.1.17 Test Case 17

Identification	TC 17
Requirement	ADMN-USER-002
Date	2020-04-10
Goal	Successfully create a new user account
Description	Admin creating a new user account.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Create user
Input	Valid credentials for the admin, user data
Expected Result	User is created with the input data.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to create a new user.

9.1.18 Test Case 18

Identification	TC 18
Requirement	ADMN-USER-003
Date	2020-04-10
Goal	Successfully delete user account
Description	Admin deleting a user account.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Delete user
Input	Valid credentials for the admin
Expected Result	User is deleted.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to delete a user.

9.1.19 Test Case 19

Identification	TC 19
Requirement	ADMN-USER-004
Date	2020-04-10
Goal	Successfully update user account
Description	Admin update a user account.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Update user
Input	Valid credentials for the admin, user data
Expected Result	User is updated according to the user data.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to update a user.

9.1.20 Test Case 20

Identification	TC 20
Requirement	ADMN-USER-005
Date	2020-04-10
Goal	Successfully read any user data
Description	Admin reading any user data.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick user5. Read data
Input	Valid credentials for the admin
Expected Result	User data is read.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to read a user.

9.1.21 Test Case 21

Identification	TC 21
Requirement	ADMN-USER-006
Date	2020-04-10
Goal	Successfully read any user data matching the search keywords.
Description	Admin reading any user data matching the search keywords.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Search5. Read data
Input	Valid credentials for the admin, search keyword[s]
Expected Result	User data is read.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to read a user matching the search keyword[s].

9.1.22 Test Case 22

Identification	TC 22
Requirement	ADMN-USER-007
Date	2020-04-10
Goal	Successfully filter user data.
Description	Admin filtering any user data.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Search5. Read data
Input	Valid credentials for the admin, filter values
Expected Result	User data is filtered.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to filter user data according to the filter values.

9.1.23 Test Case 23

Identification	TC 23
Requirement	ADMN-USER-008
Date	2020-04-10
Goal	Successfully change a user's role.
Description	Admin changing any user's role.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick any user5. Change role
Input	Valid credentials for the admin, role for the user
Expected Result	Role changed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to change the role of a user.

9.1.24 Test Case 24

Identification	TC 24
Requirement	ADMN-QUES-009
Date	2020-04-13
Goal	Successfully add an image to any question.
Description	Admin adding an image to any question of any existing exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Pick question.6. Add image
Input	Valid credentials for the admin, exam name, question, image.
Expected Result	The image is added to the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to add an image to a question.

9.1.25 Test Case 25

Identification	TC 25
Requirement	ADMN-QUES-010
Date	2020-04-13
Goal	Successfully review an image in any question.
Description	Admin reviewing an image in any question of any existing exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Pick question with image.6. View image.
Input	Valid credentials for the admin, exam name, question.
Expected Result	The image is viewed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to view an image in a question.

9.1.26 Test Case 26

Identification	TC 26
Requirement	ADMN-QUES-011
Date	2020-04-13
Goal	Successfully update an image in any question.
Description	Admin updating an image in any question of any existing exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Pick question with image.6. Change image.
Input	Valid credentials for the admin, exam name, question, image
Expected Result	The image is viewed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to update an image in a question.

9.1.27 Test Case 27

Identification	TC 27
Requirement	ADMN-QUES-012
Date	2020-04-13
Goal	Successfully delete an image in any question.
Description	Admin deleting an image in any question of any existing exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for admins.3. Log in.4. Pick exam.5. Pick question with image.6. Delete image.
Input	Valid credentials for the admin, exam name, question, image
Expected Result	The image is deleted.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to delete an image in a question.

9.2 Teacher Requirements

This section describes the test cases for the Teacher requirements.

9.2.1 Test Case 28

Identification	TC 28
Requirement	TCHR-EXAM-001
Date	2020-04-07
Goal	Successfully to create a new exam.
Description	To create a new exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Create a new exam.5. Add the name of the exam.6. Add the dates and times.7. Create exam.
Input	Valid credentials, name of the exam, date and time of publication, deadline date and time and duration time of the exam.
Expected Result	An exam successfully is created.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of creating a new exam and to check whether the requirement contains all the necessary information required for development.

9.2.2 Test Case 29

Identification	TC 29
Requirement	TCHR-EXAM-002
Date	2020-04-07
Goal	Successfully to review an exam.
Description	To review an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.
Input	Valid credentials and the name of the exam.
Expected Result	An exam successfully is viewed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of retrieving an exam from the system and to check whether the requirement contains all the necessary information required for development.

9.2.3 Test Case 30

Identification	TC 30
Requirement	TCHR-EXAM-003
Date	2020-04-07
Goal	Successfully to update an exam.
Description	To update an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Update Exam.7. Edit the date and the time of publication, the date and the time of the deadline and the duration time.8. Update.
Input	Valid credentials, the new date and time for the publication, the new date and time for the deadline and the new time for the duration.
Expected Result	An exam successfully is updated.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of updating an exam and to check whether the requirement contains all the necessary information required for development.

9.2.4 Test Case 31

Identification	TC 31
Requirement	TCHR-EXAM-004
Date	2020-04-07
Goal	Successfully to delete an exam.
Description	To delete an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Delete the exam.7. Confirm the deletion.
Input	Valid credentials and the name of the exam.
Expected Result	An exam successfully is removed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of removing an exam from the system and to check whether the requirement contains all the necessary information required for development.

9.2.5 Test Case 32

Identification	TC 32
Requirement	TCHR-QUES-001
Date	2020-04-07
Goal	Successfully to add a textual question to an exam.
Description	To add a textual question to an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Add a textual question.
Input	Valid credentials, the name of the exam and the a question.
Expected Result	An question successfully is added to an exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of adding textual questions to an exam and to check whether the requirement contains all the necessary information required for development.

9.2.6 Test Case 33

Identification	TC 33
Requirement	TCHR-QUES-003
Date	2020-04-07
Goal	Successfully to review textual questions in an exam.
Description	To review textual questions in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.
Input	Valid credentials and the name of the exam.
Expected Result	The exam successfully shows the existing textual questions.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of displaying textual questions in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.7 Test Case 34

Identification	TC 34
Requirement	TCHR-QUES-005
Date	2020-04-07
Goal	Successfully to update a textual question in an exam.
Description	To update a textual question in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select a question.7. Edit the question.8. Save changes.
Input	Valid credentials, the name of the exam and the new question.
Expected Result	The exam successfully updates the textual question in the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of updating textual questions in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.8 Test Case 35

Identification	TC 35
Requirement	TCHR-QUES-007
Date	2020-04-07
Goal	Successfully to delete a textual question in an exam.
Description	To delete a textual question in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select a question.7. Delete the question.8. Confirm the deletion.
Input	Valid credentials and the name of the exam.
Expected Result	The exam successfully deletes the existing textual question.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of deleting textual questions in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.9 Test Case 36

Identification	TC 36
Requirement	TCHR-QUES-002
Date	2020-04-07
Goal	Successfully to add a question with multiple-choices to an exam.
Description	To add a question with multiple-choices to an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Add a question with multiple-choices.
Input	Valid credentials, the name of the exam, a question and multiple-choices.
Expected Result	An question with multiple-choices successfully is added to an exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of adding questions with multiple-choices to an exam and to check whether the requirement contains all the necessary information required for development.

9.2.10 Test Case 37

Identification	TC 37
Requirement	TCHR-QUES-004
Date	2020-04-07
Goal	Successfully to review questions with multiple-choices in an exam.
Description	To review questions with multiple-choices in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.
Input	Valid credentials and the name of the exam.
Expected Result	The exam successfully shows the existing questions with multiple-choices.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of displaying questions with multiple-choices in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.11 Test Case 38

Identification	TC 11
Requirement	TCHR-QUES-006
Date	2020-04-07
Goal	Successfully to update a question with multiple-choices in an exam.
Description	To update a question with multiple-choices in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select a question with multiple-choices.7. Edit the question.8. Save changes.
Input	Valid credentials, the name of the exam, the new question and the new multiple-choices.
Expected Result	The exam successfully updates the question with multiple-choices.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of updating questions with multiple-choices in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.12 Test Case 39

Identification	TC 39
Requirement	TCHR-QUES-008
Date	2020-04-07
Goal	Successfully to delete a question with multiple-choices in an exam.
Description	To delete a question with multiple-choices in an exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select a question with multiple-choices.7. Delete the question.8. Confirm the deletion.
Input	Valid credentials and the name of the exam.
Expected Result	The exam successfully deletes the existing question with multiple-choices.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of deleting questions with multiple-choices in an exam and to check whether the requirement contains all the necessary information required for development.

9.2.13 Test Case 40

Identification	TC 40
Requirement	TCHR-STAT-001
Date	2020-04-07
Goal	Successfully to request a report about the average number of students passed in a given exam.
Description	To request a report about the average number of students passed in a given exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Generate report.7. Select the target perspective.
Input	Valid credentials, the name of the exam and the name of perspective.
Expected Result	Report about the average number of students passed in a given exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of generating a report and to check whether the requirement contains all the necessary information required for development.

9.2.14 Test Case 41

Identification	TC 41
Requirement	TCHR-STAT-002
Date	2020-04-07
Goal	Successfully to request a report about the number of participants in a given exam.
Description	To request a report about the number of participants in a given exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Generate report.7. Select the target perspective.
Input	Valid credentials, the name of the exam and the name of perspective.
Expected Result	Report about the number of participants in a given exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of generating a report and to check whether the requirement contains all the necessary information required for development.

9.2.15 Test Case 42

Identification	TC 42
Requirement	TCHR-STAT-003
Date	2020-04-07
Goal	Successfully to request a report about the common difficult question[s] in a given exam.
Description	To request a report about the common difficult question[s] in a given exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Generate report.7. Select the target perspective.
Input	Valid credentials, the name of the exam and the name of perspective.
Expected Result	Report about the common difficult question[s] in a given exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of generating a report and to check whether the requirement contains all the necessary information required for development.

9.2.16 Test Case 43

Identification	TC 43
Requirement	TCHR-STAT-004
Date	2020-04-07
Goal	Successfully to request a report about the distribution of the grades in a given exam.
Description	To request a report about the distribution of the grades in a given exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Generate report.7. Select the target perspective.
Input	Valid credentials, the name of the exam and the name of perspective.
Expected Result	Report about the distribution of the grades in a given exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of generating a report and to check whether the requirement contains all the necessary information required for development.

9.2.17 Test Case 44

Identification	TC 44
Requirement	TCHR-GRAD-002
Date	2020-04-07
Goal	Successfully to set a grade of a student.
Description	To set a grade of a student.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the answers of the student.6. Set the points.7. Set the grade.8. Save the grade.
Input	Valid credentials, the name of the exam and the identification number of a student.
Expected Result	The grade of the student is set.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of setting grades of students and to check whether the requirement contains all the necessary information required for development.

9.2.18 Test Case 45

Identification	TC 45
Requirement	TCHR-GRAD-001
Date	2020-04-07
Goal	Successfully to edit a grade of a student.
Description	To edit a grade of a student.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search for a student by their identification number.5. Open the profile of the student.6. Edit the grade.7. Save the grade.
Input	Valid credentials, the name of the exam and the identification number of the student.
Expected Result	The grade of the student is edited.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of editing grades of students and to check whether the requirement contains all the necessary information required for development.

9.2.19 Test Case 46

Identification	TC 46
Requirement	TCHR-GRAD-003
Date	2020-04-07
Goal	Successfully to edit a grade of a student, that was set by the system.
Description	To edit a grade of a student, that was set by the system.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search for a student by their identification number.5. Open the profile of the student.6. Edit the grade.7. Save the grade.
Input	Valid credentials, the name of the exam and the identification number of the student.
Expected Result	The grade of the student is edited.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of editing grades of students that were set by the system and to check whether the requirement contains all the necessary information required for development.

9.2.20 Test Case 47

Identification	TC 47
Requirement	TCHR-QUES-009
Date	2020-04-07
Goal	Successfully to add an image to a question in a en exam.
Description	To add an image to a question in a en exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Create an exam.5. Add a question.6. Upload an Image7. Save the image.
Input	Valid credentials, the name of the exam, the dates and times of the exam, a question and an image.
Expected Result	The image uploaded and added to the question.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of uploading and adding images to questions in exams and to check whether the requirement contains all the necessary information required for development.

9.2.21 Test Case 48

Identification	TC 48
Requirement	TCHR-QUES-010
Date	2020-04-07
Goal	Successfully to review an image that was added to a question in a en exam.
Description	To review an image that was added to a question in a en exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select the question.7. View the question.
Input	Valid credentials, the name of the exam and the target question.
Expected Result	The image displayed.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of reviewing images from questions in exams and to check whether the requirement contains all the necessary information required for development.

9.2.22 Test Case 49

Identification	TC 49
Requirement	TCHR-QUES-011
Date	2020-04-07
Goal	Successfully to update an image that was added to a question in a en exam.
Description	To update an image that was added to a question in a en exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select the question.7. Upload a new image.8. Save changes.
Input	Valid credentials, the name of the exam and the target question, and a new image.
Expected Result	The image updated.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of updating images that were added to questions in a exam and to check whether the requirement contains all the necessary information required for development.

9.2.23 Test Case 50

Identification	TC 50
Requirement	TCHR-QUES-012
Date	2020-04-07
Goal	Successfully to delete an image from a question in a exam.
Description	To delete an image from a question in a exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Select the question.7. Select the image.8. Delete image.9. Confirm.
Input	Valid credentials, the name of the exam and the target question.
Expected Result	The image deleted.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of deleting images that were added to questions in a exam and to check whether the requirement contains all the necessary information required for development.

9.2.24 Test Case 51

Identification	TC 51
Requirement	TCHR-STUD-001
Date	2020-04-07
Goal	Successfully to register a student to a exam.
Description	To register a student to a exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Register students.7. Fill the information of the student.8. Register.
Input	Valid credentials, the name of the exam and the information of the student.
Expected Result	Student registered to a exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of registering students to exams and to check whether the requirement contains all the necessary information required for development.

9.2.25 Test Case 52

Identification	TC 52
Requirement	TCHR-STUD-002
Date	2020-04-07
Goal	Successfully to un-register a student from a exam.
Description	To un-register a student from a exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for teachers.3. Log in.4. Search the exam by its name.5. Open the exam.6. Current Participants.7. Select the student.8. Un-register.9. Confirm.
Input	Valid credentials, the name of the exam and the information of the student.
Expected Result	Student un-registered from a exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of un-registering students from exams and to check whether the requirement contains all the necessary information required for development.

9.3 Student Requirements

This section describes the test cases for the Student requirements.

9.3.1 Test Case 53

Identification	TC 53
Requirement	STUD-EXAM-001
Date	2020-04-10
Goal	Successfully to view a list of the available exams after the student has logged in.
Description	To view a list of the available exams after the student has logged in.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. View list of the available exams.
Input	Valid credentials for the student
Expected Result	The student can view a list of available exams
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of viewing all the available exams for the student

9.3.2 Test Case 54

Identification	TC 54
Requirement	STUD-EXAM-002
Date	2020-04-10
Goal	Successfully to view a list of the submitted exams after the student has logged in.
Description	To view a list of the submitted exams after the student has logged in.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. View a list of the submitted exams done by the student.
Input	Valid credentials for the student
Expected Result	The student can view a list of submitted exams done by the student
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing all the submitted exams that the student has already done

9.3.3 Test Case 55

Identification	TC 55
Requirement	STUD-EXAM-003
Date	2020-04-10
Goal	Successfully to view the exam instructions before taking the exam.
Description	To view the exam instructions before taking the exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. View the exam instructions of the available exams.
Input	Valid credentials for the student
Expected Result	The student can view the exam instructions of the available exams.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing the exam instructions of the available exams to the student.

9.3.4 Test Case 56

Identification	TC 56
Requirement	STUD-EXAM-004
Date	2020-04-10
Goal	Successfully to start an examination from the list of available exams.
Description	to start an examination from the list of available exams.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.
Input	Valid credentials for the student
Expected Result	The student can start an examination from the list of available exams.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of starting an examination for the student.

9.3.5 Test Case 57

Identification	TC 57
Requirement	STUD-EXAM-005
Date	2020-04-10
Goal	Successfully to view the time taken to finish an exam directly after the submission of the exam by the student.
Description	To view the time taken to finish an exam directly after the submission of the exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. Submit the exam.6. View the time taken by the student to finish the exam.
Input	Valid credentials for the student
Expected Result	The student can view the time taken to finish an exam directly after the submission of the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing time taken to finish an exam.

9.3.6 Test Case 58

Identification	TC 58
Requirement	STUD-EXAM-006
Date	2020-04-10
Goal	Successfully to view the remaining time of the exam during the exam period for the student.
Description	To view the remaining time of the exam during the exam period for the student.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View the remaining time.
Input	Valid credentials for the student
Expected Result	The student can view the remaining time of the exam during the exam period for the student.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing how much time is left for the student to complete the exam.

9.3.7 Test Case 59

Identification	TC 59
Requirement	STUD-EXAM-007
Date	2020-04-10
Goal	Successfully to submit an exam during the exam period.
Description	To submit an exam during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. Submit the exam.
Input	Valid credentials for the student
Expected Result	The student can submit an exam during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of submitting the exam by the student during the exam period.

9.3.8 Test Case 60

Identification	TC 60
Requirement	STUD-EXAM-008
Date	2020-04-10
Goal	Successfully to submit an examination without answering one or more questions.
Description	To submit an examination without answering one or more questions.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. Answer all questions except for two questions.6. Submit the exam.
Input	Valid credentials for the student
Expected Result	The student can submit an examination without answering one or more questions.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of submitting the exam by the student without answering all one or more questions.

9.3.9 Test Case 61

Identification	TC 61
Requirement	STUD-QUES-001
Date	2020-04-10
Goal	Successfully to view the question and any images (if available) clearly before the answer field.
Description	To view the question and any images (if available) clearly before the answer field.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question.
Input	Valid credentials for the student
Expected Result	The student can view the question and any images (if available) clearly before the answer field.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing questions clearly before the answer field

9.3.10 Test Case 62

Identification	TC 62
Requirement	STUD-QUES-002
Date	2020-04-10
Goal	Successfully to view the instructions of every question, i.e. multiple-choices or textual answers.
Description	To view the instructions of every question, i.e. multiple-choices or textual answers.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question.6. View instruction of the question.
Input	Valid credentials for the student
Expected Result	The student can view the instructions of every question, i.e. multiple-choices or textual answers.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing the instructions of every question, i.e. multiple-choices or textual answers clearly for the student.

9.3.11 Test Case 63

Identification	TC 63
Requirement	STUD-QUES-003
Date	2020-04-10
Goal	Successfully to view the list of questions marked with a flag.
Description	To view the list of questions marked with a flag.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question.6. Mark the question with a flag.7. View the list of all question marked with a flag.
Input	Valid credentials for the student
Expected Result	The student can view the list of questions marked with a flag.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing the list of questions marked with a flag for the student.

9.3.12 Test Case 64

Identification	TC 64
Requirement	STUD-QUES-004
Date	2020-04-10
Goal	Successfully to view the answered and unanswered questions differently.
Description	To view the answered and unanswered questions differently.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. Answer a question.6. View exam panel.
Input	Valid credentials for the student
Expected Result	The student can differentiate by answered questions and unanswered questions.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing the answered questions and unanswered questions differently for the student.

9.3.13 Test Case 65

Identification	TC 65
Requirement	STUD-QUES-005
Date	2020-04-10
Goal	Successfully to mark a question with a flag for a specific reason.
Description	To mark a question with a flag for a specific reason.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question.6. Mark the question with a flag.
Input	Valid credentials for the student
Expected Result	The student can mark a question with a flag.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of marking a question with a flag by the student.

9.3.14 Test Case 66

Identification	TC 66
Requirement	STUD-ANSW-001
Date	2020-04-10
Goal	Successfully to choose answer[s] from multiple-choices questions.
Description	To choose answer[s] from multiple-choices questions.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a multiple-choices question.6. Select an answer.
Input	Valid credentials for the student
Expected Result	The student can choose answer[s] from multiple-choices questions.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of choosing answer[s] from multiple-choices questions for the student.

9.3.15 Test Case 67

Identification	TC 67
Requirement	STUD-ANSW-002
Date	2020-04-10
Goal	Successfully to change the student's choice[s] on multiple-choices questions during the exam period.
Description	To change the student's choice[s] on multiple-choices questions during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a multiple-choices question.6. Change an answer.
Input	Valid credentials for the student
Expected Result	The student can change choice[s] on multiple-choices questions during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of changing answer[s] from multiple-choices questions for the student.

9.3.16 Test Case 68

Identification	TC 68
Requirement	STUD-ANSW-003
Date	2020-04-10
Goal	Successfully to add answer[s] to textual question[s].
Description	To add answer[s] to textual question[s].
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a textual question.6. Add an answer.
Input	Valid credentials for the student
Expected Result	The student can add answer[s] to textual question.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of adding answer[s] to textual question[s] by the student.

9.3.17 Test Case 69

Identification	TC 69
Requirement	STUD-ANSW-004
Date	2020-04-10
Goal	Successfully to edit the student's answer[s] to a textual question[s] during the exam period.
Description	To edit the student's answer[s] to a textual question[s] during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View an answered textual question.6. Edit the answer.
Input	Valid credentials for the student
Expected Result	The student can edit answer[s] to a textual question[s] during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of editing answer[s] to textual question[s] by the student.

9.3.18 Test Case 70

Identification	TC 70
Requirement	STUD-ANSW-005
Date	2020-04-10
Goal	Successfully to remove the student's choice[s] on multiple-choices questions during the exam period.
Description	To remove the student's choice[s] to a multiple-choices question[s] during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View an answered multiple-choices question.6. Remove the answer.
Input	Valid credentials for the student
Expected Result	The student can remove choice[s] to a multiple-choices question[s] during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of removing choice[s] to multiple-choices question[s] by the student.

9.3.19 Test Case 71

Identification	TC 71
Requirement	STUD-ANSW-006
Date	2020-04-10
Goal	Successfully to remove the student's answer[s] on to a textual question[s] questions during the exam period.
Description	To remove the student's answer[s] to a textual question[s] during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View an answered textual question.6. Remove the answer.
Input	Valid credentials for the student
Expected Result	The student can remove answer[s] to a textual question[s] during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of removing answer[s] to textual question[s] by the student.

9.3.20 Test Case 72

Identification	TC 72
Requirement	STUD-CMNT-001
Date	2020-04-10
Goal	Successfully to add comments to every question during the exam period by the student.
Description	To add comments to every question during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question.6. Add a comment.
Input	Valid credentials for the student
Expected Result	The student can add comments to every question during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of adding comments to every question during the exam period.

9.3.21 Test Case 73

Identification	TC 73
Requirement	STUD-CMNT-002
Date	2020-04-10
Goal	Successfully to edit comments on every question during the exam period by the student.
Description	To add comments to every question during the exam period.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question with comment.6. Edit the comment.
Input	Valid credentials for the student
Expected Result	The student can edit comments on every question during the exam period.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of Editing comments by the student during the exam period.

9.3.22 Test Case 74

Identification	TC 74
Requirement	STUD-CMNT-003
Date	2020-04-10
Goal	Successfully to remove comments from every question on the exam.
Description	To remove comments from every question on the exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. View a question with comment.6. Remove the comment.
Input	Valid credentials for the student
Expected Result	The student can remove comments from every question on the exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of removing comments by the student during the exam period.

9.3.23 Test Case 75

Identification	TC 75
Requirement	STUD-GRAD-001
Date	2020-04-10
Goal	Successfully to view the grade automatically after the submission of an only multiple-choices exam.
Description	To view the grade automatically after the submission of an only multiple-choices exam.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. Start an examination from the list of available exams.5. Submit the exam.6. View the grade.
Input	Valid credentials for the student
Expected Result	The student can view the grade automatically after the submission of an only multiple-choices exam.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing the grade automatically after the submission of an only multiple-choices exam by the student.

9.3.24 Test Case 76

Identification	TC 76
Requirement	STUD-FDBK-001
Date	2020-04-10
Goal	Successfully to view a list of available feed-backs from the teachers by the student.
Description	To view a list of available feed-backs from the teachers.
Steps	<ol style="list-style-type: none">1. Open the application.2. Go to the panel for students.3. Log in.4. View list of available feed-backs.
Input	Valid credentials for the student
Expected Result	The student can view a list of available feed-backs from the teachers.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability of showing a list of available feed-backs from the teachers to the student.

9.4 User Requirements

This section describes the test cases for the User requirements.

9.4.1 Test Case 77

Identification	TC 77
Requirement	USER-AUTH-001
Date	2020-04-12
Goal	Successfully login to the system.
Description	User logging to the system.
Steps	<ol style="list-style-type: none">1. Open the application.2. Enter email.3. Enter password.
Input	Valid email and password.
Expected Result	Login Successfully.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	User shall login to be able to use the system.

9.4.2 Test Case 78

Identification	TC 78
Requirement	USER-AUTH-002
Date	2020-04-12
Goal	Successfully logout from the system.
Description	User logging out from the system.
Steps	<ol style="list-style-type: none">1. Press logout button.
Input	-
Expected Result	Logout Successfully.
Actual Result	-
Post-condition	-
Comments	User should be logged in.
Objectivity:	User can log out to secure its account.

9.4.3 Test Case 79

Identification	TC 79
Requirement	USER-AUTH-003
Date	2020-04-12
Goal	Reset Password successfully.
Description	User wants to reset its password.
Steps	<ol style="list-style-type: none">1. Press reset password button.2. Enter email.3. Open new email which received from the system.4. Click on an link to enter new password.
Input	-
Expected Result	Password is changed.
Actual Result	-
Post-condition	-
Comments	User should be registered in the system.
Objectivity:	To let the user reset its password.

9.4.4 Test Case 80

Identification	TC 80
Requirement	USER-AUTH-004
Date	2020-04-12
Goal	Edit profile successfully.
Description	User wants to edit its phone number.
Steps	<ol style="list-style-type: none">1. Press edit profile button.2. Enter new phone number.3. save your changes.
Input	-
Expected Result	Profile updated successfully
Actual Result	-
Post-condition	-
Comments	User should be logged in to the system.
Objectivity:	To let the user edit its profile information.

9.5 Non-functional Requirements

This section describes the test cases for the non-functional requirements.

9.5.1 Test Case 81

Identification	TC 81
Requirement	NFRQ-PERF-001
Date	2020-04-13
Goal	The loading time for the page should not exceed 2 second.
Description	The time between start and finish loading the page should be less than 1 second
Steps	<ol style="list-style-type: none">1. Enter the address of the website in Chrome.2. Open Console tools.3. Monitor the load time.4. Press enter.5. The time should not exceed 2 second.
Input	Loading the page is less than 1 second.
Expected Result	The image is deleted.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of the ability to load the home page in less than 2 seconds.

9.5.2 Test Case 82

Identification	TC 82
Requirement	NFRQ-PRVC-001
Date	2020-04-13
Goal	The system conforms with GDPR.
Description	The information in the website should be deleted when the user is removed and the user must agree to the license
Steps	<ol style="list-style-type: none">1. Create a student with information.2. Delete the student.3. Check if the student exists in the database.
Input	-
Expected Result	The student is removed with all data referring to him/her.
Actual Result	-
Post-condition	-
Comments	-
Objectivity:	To check whether the system is able to meet the requirement in terms of privacy.

10 Requirements Modeling

This section describes the purpose of the requirements modeling and the primary models for the current set of requirements.

10.1 Purpose of the requirements modeling

The purpose of the requirements modeling is to inform the stakeholders about the progress of the work. The modeling will provide the stakeholders the opportunity to reflect their opinions to assist in assessing the accuracy of the current requirements. Moreover, it enables users to express their specifications concretely.

10.2 USER-AUTH-001

The following state machine diagram shows the login of the student and all the states it goes through during its lifetime.

The student starts by entering his or her username and password, the student is in the first state “Entering username and password”, and then the system checks if the student’s credentials are valid or not. If they are valid the process continues and the system shows a welcome message to the student, the student is in the “Display Welcome” state. If they are not valid the system shows an error message to the student, the student is in the “Display error message”.

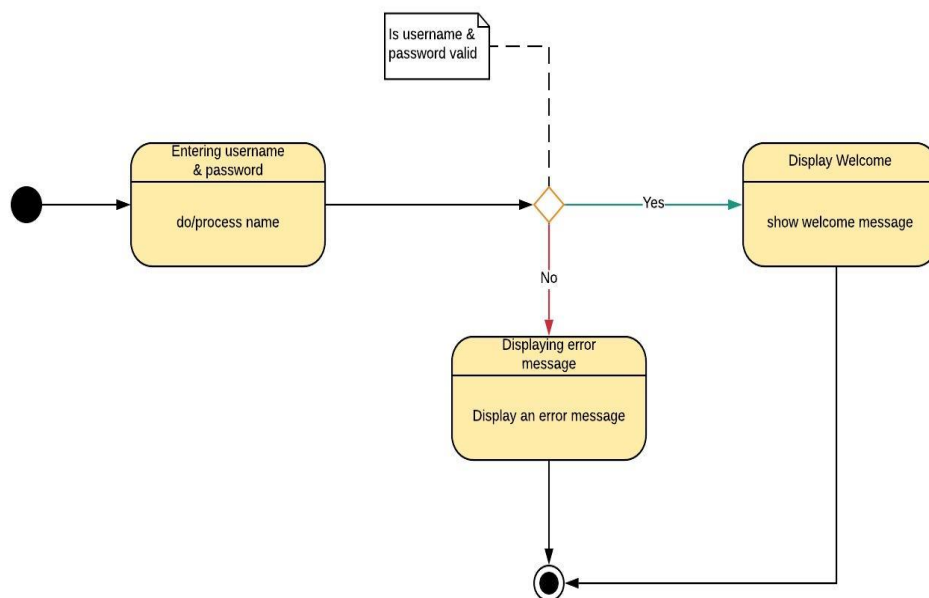

Figure 1: A state machine diagram describes the process of login.

10.3 USER-AUTH-003

The following state machine diagram shows the resetting password of a user and all the states it goes through during its lifetime.

It starts by the user providing his or her email address, the user is “Entering user email” state, and then the system checks if the user’s email is valid or not, and then the user can be in two different states depending on the validations of the system, the “sending reset password email” state, or the “Displaying error message” state.

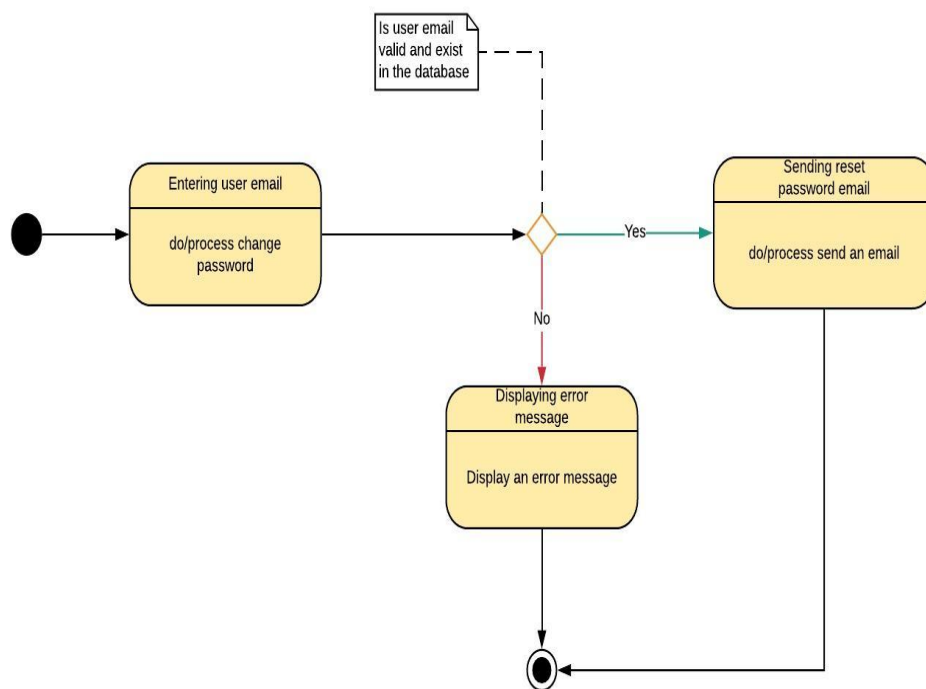

Figure 2: A state machine diagram describes the process of resetting password.

10.4 STUD-GRAD-001

The following state machine diagram shows the process of showing multiple-choice exam results by the system and all the states it goes through during its lifetime.

it starts in the “Submitting multiple-choice exam” state, and then the process continues and the system checks if it was submitted before the end time of the exam, and lastly, it will be in the “Displaying result” state where the system shows the result, but if the exam was submitted after the end time the process ends with no further states.

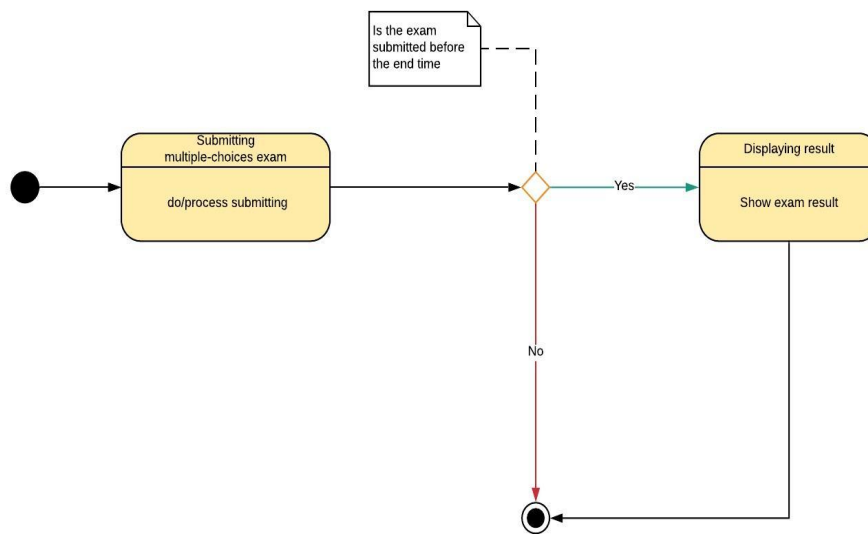

Figure 3: A state machine diagram describes the process of showing multiple-choice exam results by the system.

10.5 TCHR-GRAD-003

The following state machine diagram shows the process of editing students' results by the teacher and all the states it goes through during its lifetime.

It starts in the "Displaying existing exam" state, and then the system checks if the exam id is valid, and then it moves to the "Editing existing exam grade" state if the is valid, after the editing it continues to the "Updating database" if the student identification is valid and finally the process ends.

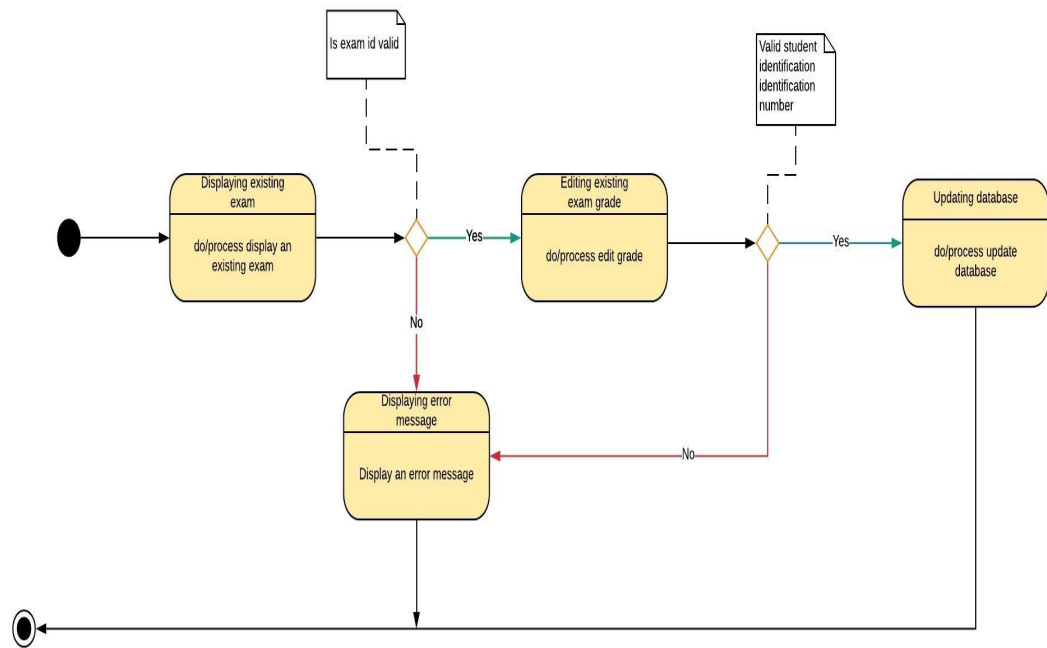

Figure 4: A state machine diagram describes the process of editing students' results by the teacher.

10.6 STUD-EXAM-001

The following state machine diagram shows the process of displaying available exams for the students and all the states it goes through during its lifetime.

It starts by the student entering his or her username and password, the student is in the first state "Entering username and password", and then the system checks if the student's credentials are valid or not. If they are valid the process continues and the student will be in the "Displaying available exams" state where the system shows all available exams for the students if the credentials are not valid the student will be in the "Displaying error message" where the system informs the student by showing an error message.

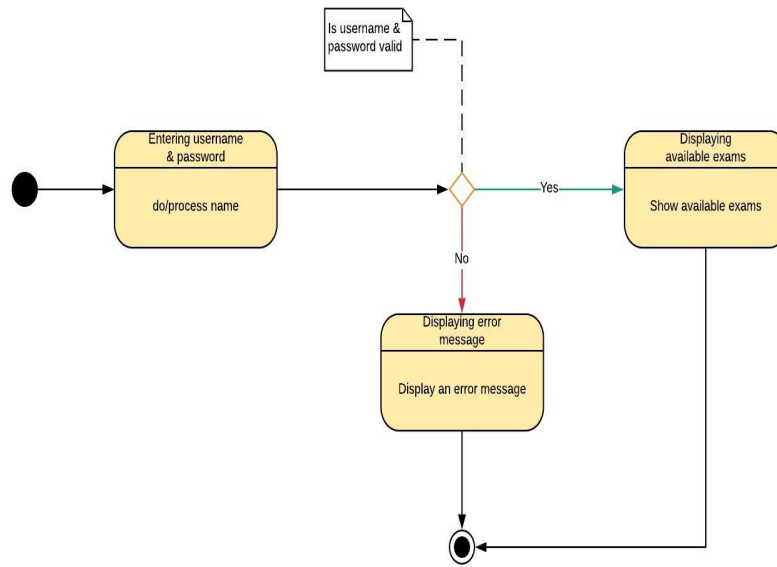

Figure 5: A state machine diagram describes the process of displaying available exams for the students.

10.7 STUD-EXAM-002

The following state machine diagram shows the process of displaying submitted exams for the students and all the states it goes through during its lifetime.

It starts by the student entering his or her username and password, the student is in the first state “Entering username and password”, and then the system checks if the student’s credentials are valid or not. If they are valid the process continues and the student will be in the “Displaying submitted exams” state where the system shows all submitted exams by the student if the credentials are not valid the student will be in the “Displaying error message” where the system informs the student by showing an error message.

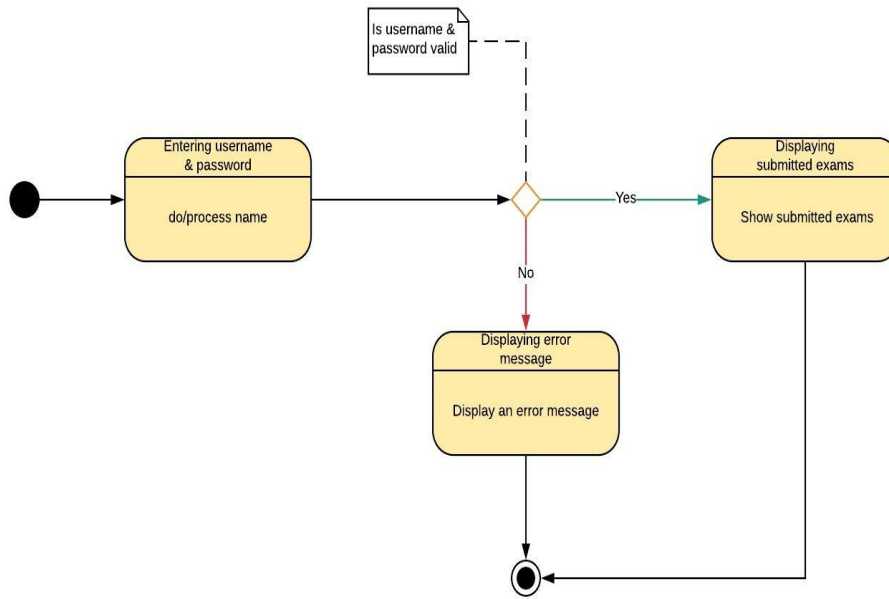

Figure 6: A state machine diagram describes the process of displaying submitted exams for the students.

10.8 STUD-EXAM-004

The following state machine diagram shows the process of starting an exam session for the students and all the states it goes through during its lifetime.

It starts with the student in the “Displaying available exams” and the system checks if there are available exams for the student, and the student moves to the “Starting exam session” state where he starts an exam.

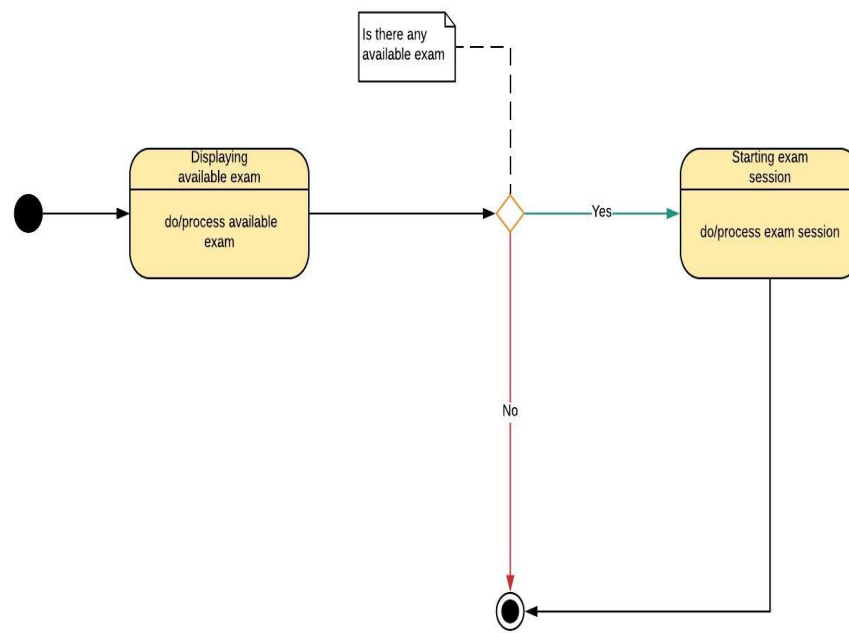

Figure 7: A state machine diagram describes the process of starting an exam session for the students.

10.9 ADMN-EXAM-001

The following state machine diagram shows the process of creating an exam by the admin and all the states it goes through during its lifetime.

It starts by the admin entering his or her username and password, the admin is in the first state “Entering admin name and password”, and then the system checks if the student’s credentials are valid or not. If not the admin will be in the “Displaying error message” where the system informs the admin of invalid credentials. If the credentials are valid the admin will be in the “creat exam” state where admin can create a new exam, and then will be in the state “updating database” where the system updates the database.

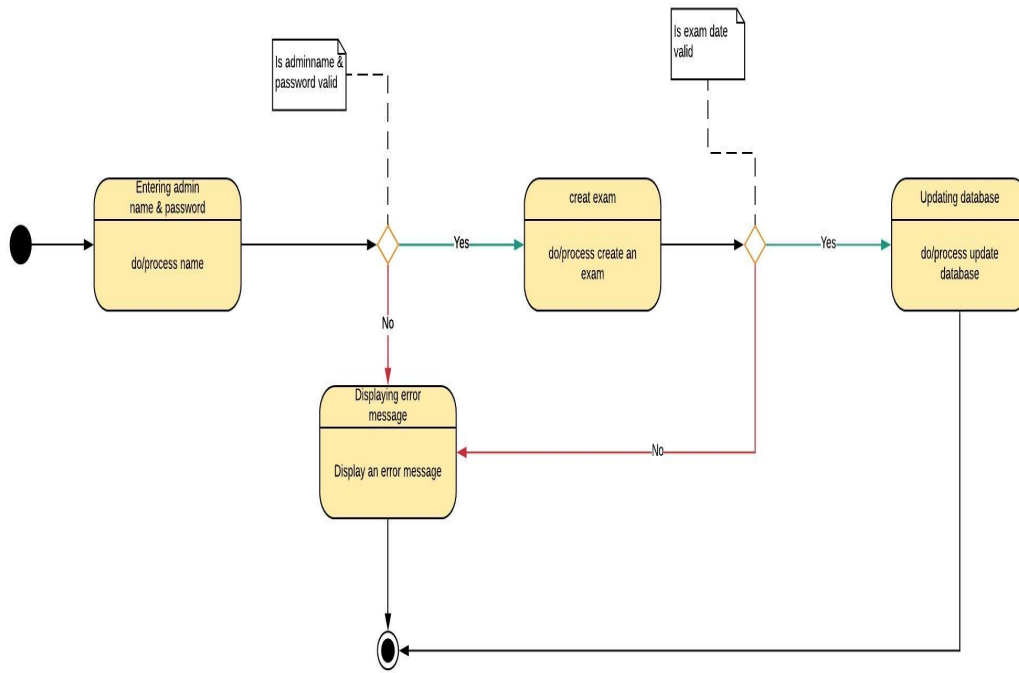

Figure 8: A state machine diagram describes the process of creating an exam by the admin.

10.10 ADMN-EXAM-003

The following state machine diagram shows the process of editing an existing exam by the admin and all the states it goes through during its lifetime.

It starts by the admin entering his or her username and password, the admin is in the first state “Entering admin name and password”, and then the system checks if the student’s credentials are valid or not. If not the admin will be in the “Displaying error message” where the system informs the admin of invalid credentials. If the credentials are valid the admin will be in the “Editing exam” state where admin can edit an exam, and then will be in the state “updating database” where the system updates the database.

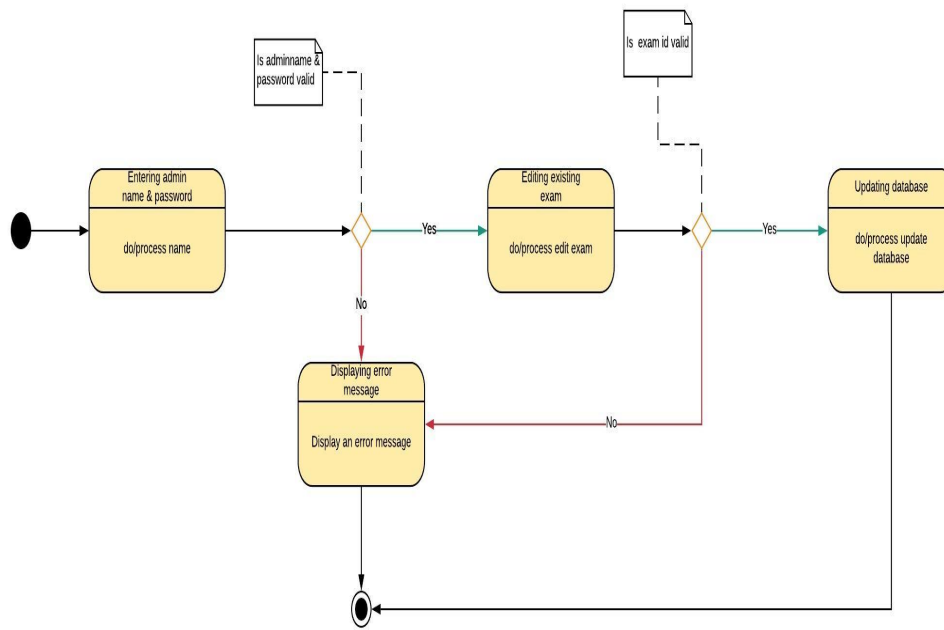

Figure 9: A state machine diagram describes the process of editing an existing exam by the admin.

10.11 ADMN-USER-003

The following state machine diagram shows the process of deleting a user account by the admin and all the states it goes through during its lifetime.

It starts by the admin entering his or her username and password, the admin is in the first state “Entering admin name and password”, and then the system checks if the student’s credentials are valid or not. If not the admin will be in the “Displaying error message” where the system informs the admin of invalid credentials. If the credentials are valid the admin will be in the “Deleting user account” state where admin can delete a user account, and then will be in the state “updating database” where the system updates the database.

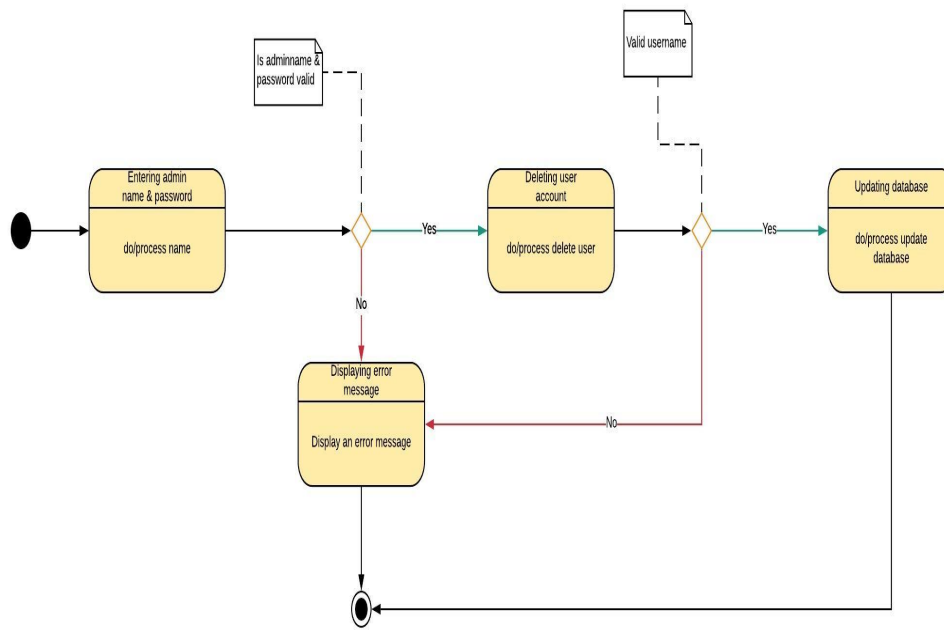

Figure 10: A state machine diagram describes the process of deleting a user account by the admin.

10.12 ADMN-USER-004

The following state machine diagram shows the process of changing a user account data by the admin and all the states it goes through during its lifetime.

It starts by the admin entering his or her username and password, the admin is in the first state “Entering admin name and password”, and then the system checks if the student’s credentials are valid or not. If not the admin will be in the “Displaying error message” where the system informs the admin of invalid credentials. If the credentials are valid the admin will be in the “Changing user data” state where admin can change a user account, and then will be in the state “updating database” where the system updates the database.

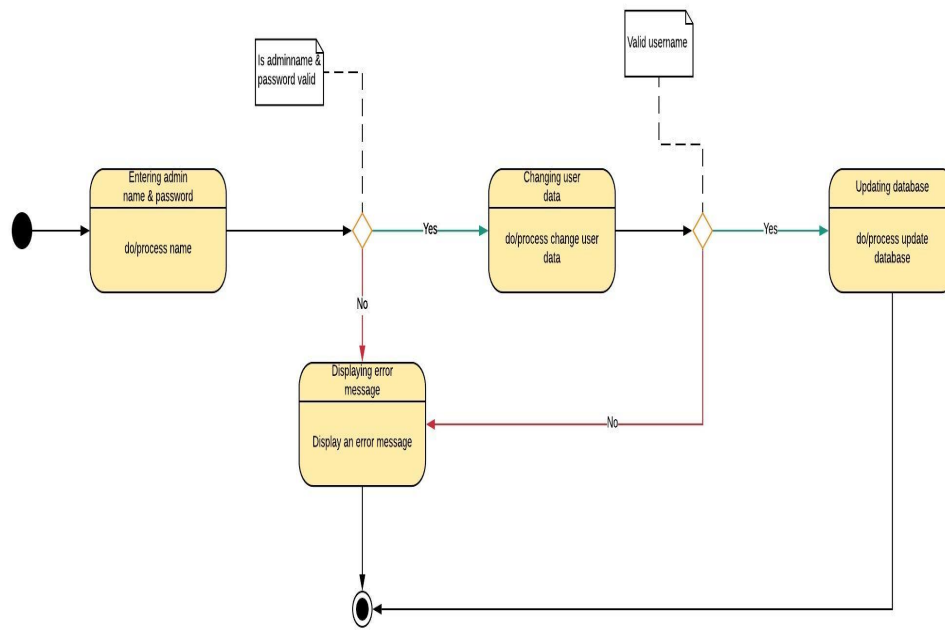

Figure 11: A state machine diagram describes the process of changing a user account data by the admin.

10.13 Non-functional Requirements

The following activity diagram shows the Non-functional Requirements specified in the system by using the UML profile for Modeling and Analysis of Real-Time Embedded Systems (MARTE)

It specifies “NFRQ-PRVC-001” which is a privacy-related requirement that says “The system shall conform the GDPR.” And “NFRQ-SECU-001” which is a security-related requirement and that says “The system shall use strong security measures by applying the SSL certificate.” And finally “NFRQ-PERF-001” which is a performance-related requirement that says “The home page shall be loaded in less than two seconds.”

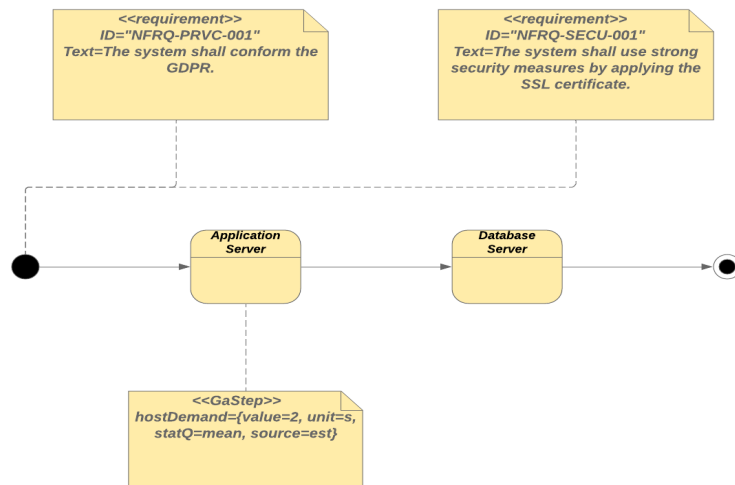

Figure 12: An activity diagram shows the Non-functional Requirements by using MARTE.

11 USE CASE

This section describes the interactions between the different users and the application.

11.1 Admin USE CASE

The diagram shows the interaction between the admin and the application.

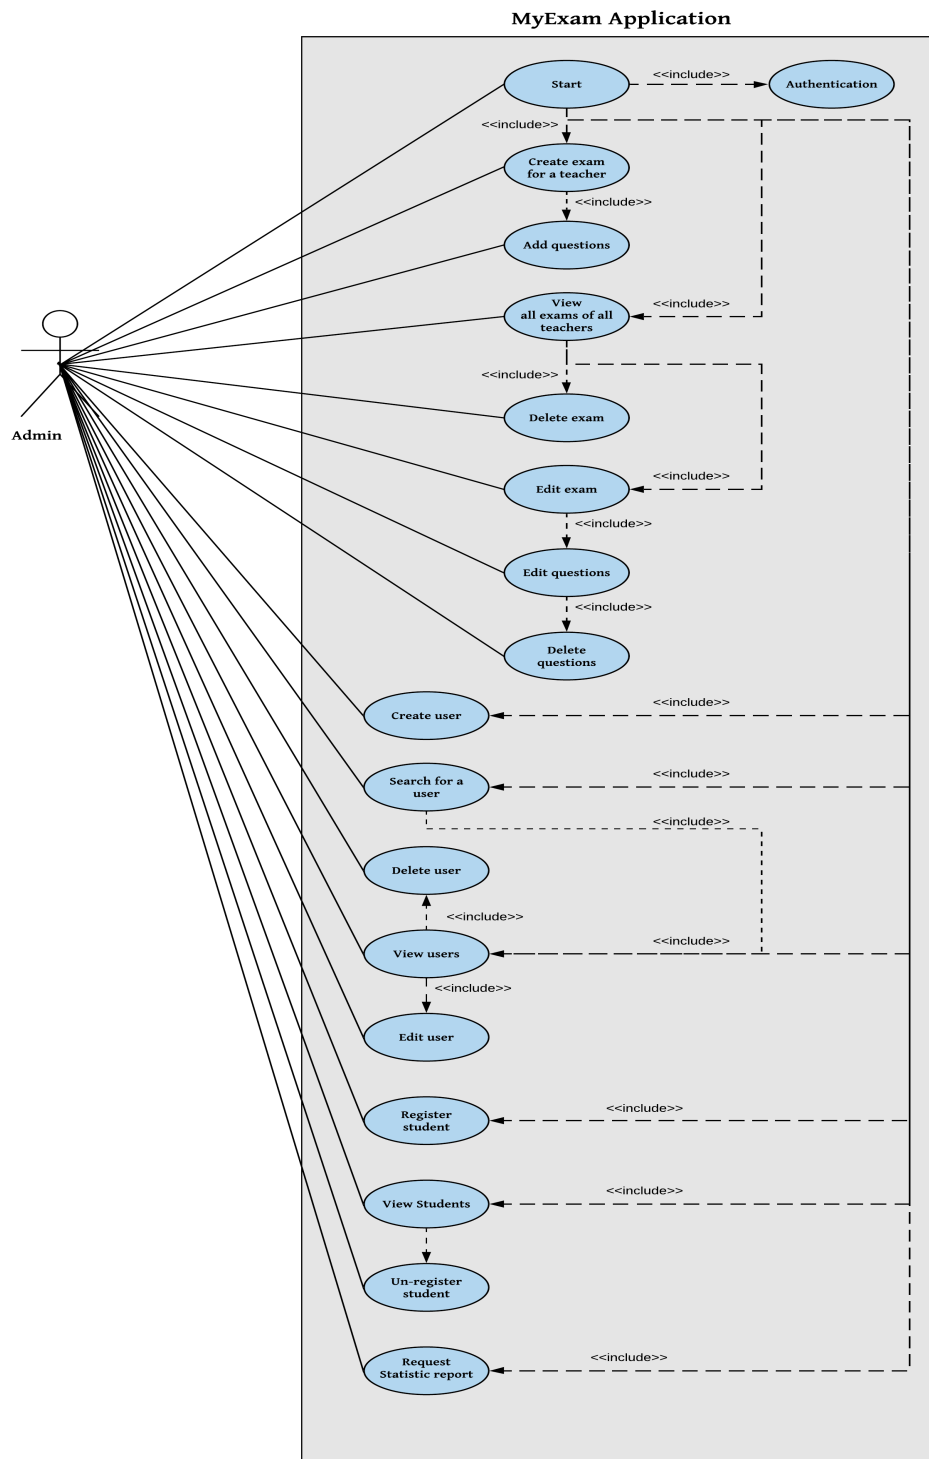

Figure 13: Admin USE CASE Diagram

11.2 Teacher USE CASE

The diagram shows the interaction between the teacher and the application.

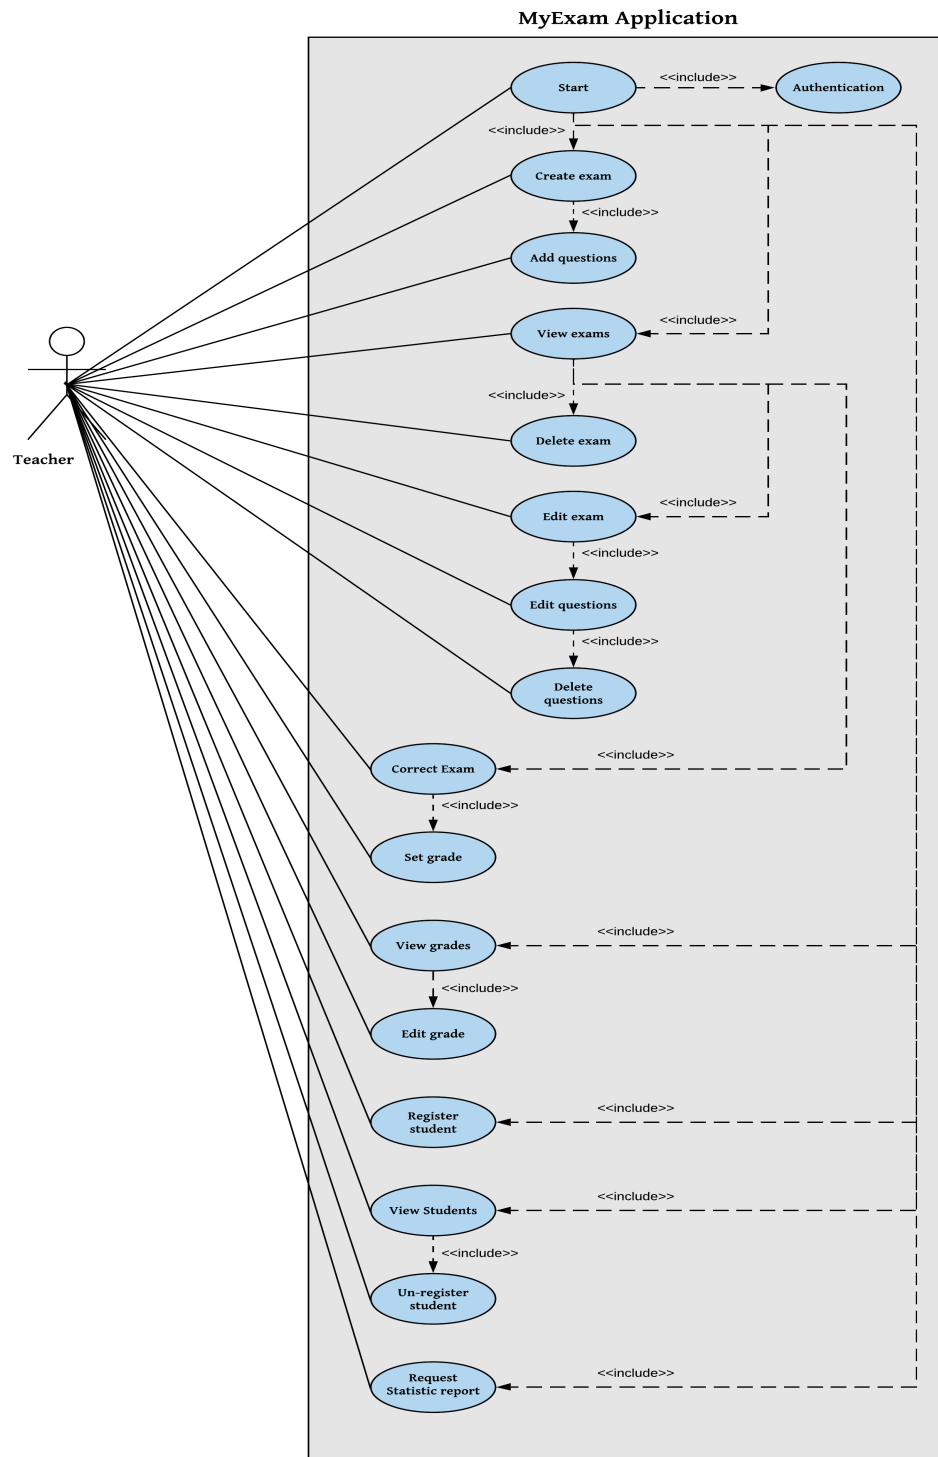

Figure 14: Teacher USE CASE Diagram

11.3 Student USE CASE

The diagram shows the interaction between the student and the application.

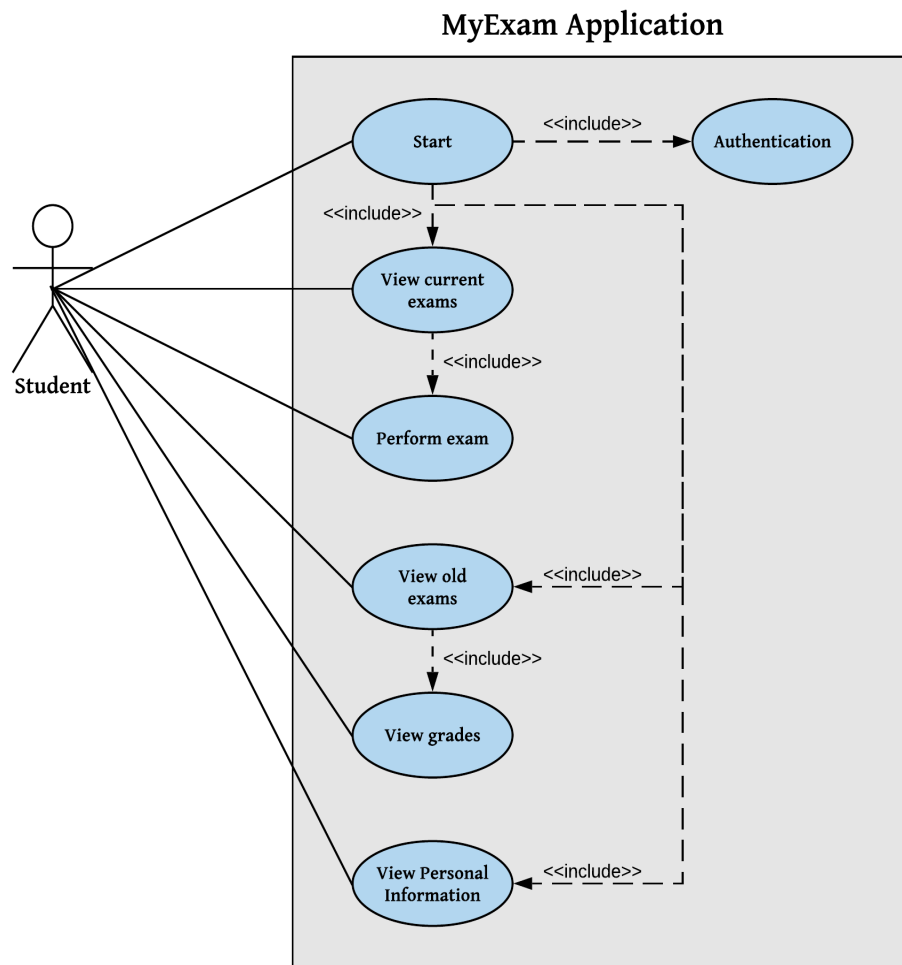

Figure 15: Student USE CASE Diagram
